Bellefonte Republican.

Established in 1869. | "Let Us See To it that A Government of the People, for the People and by the People, Shall Not perish from the Earth."—A. LINCOLN. | Terms: $1.50 per Year

VOL. XXVI | BELLEFONTE, PA., THURSDAY MORNING, FEBRUARY 7, 1895. | NO 6

THE wordy warfare which sometimes disgraces Congress is deplorable enough and richly deserves public censure. A physical encounter on the floor of Congress marks a still deeper descent from the manly bearing which Representatives should jealously preserve, even under the greatest provocation. The whole nation is sullied by such an exhibition of brutal methods of seeking vindication for words uttered in debate or otherwise in such an arena. The scene enacted in the National House of Representatives yesterday in which Mr. Heard and Mr. Breckinridge were the chief actors, in which the words "scoundrel" and "liar" were bandied, followed by a fierce attack of Mr. Breckinridge, revives the memory of the days of Bully Brooks and other occasions when the National Congress became a byword and a reproach. In the rude code of a lawless society which demands satisfaction when such words are used such assaults are justified, but the epithets and the attempted blow in this case are brutalities of speech and conduct for which there can be no possible excuse in the American Congress. This outrageous breach of the law and legislative proprieties cannot be condoned by a public who are quick to resent breaches of the law by the humblest citizen. This matter should be searchingly investigated and adequate punishment administered under the rules of the House.

WHEN it was announced that China was ready and willing to sue for peace with Japan, the officials of the latter Government, in an unofficial way, began to discredit the sincerity of the Chinese Empire. The developments reveal that the Japanese had a thorough appreciation of the wiles of Chinese diplomacy. The envoys of China, upon visiting the Japanese capital, tendered their credentials, which were found to be defective, and the envoys were politely dismissed and invited to leave Japan with expedition. The credentials simply constituted the envoys messengers to find out what the intentions of the Japanese were. China's object appears to be to gain time, during which interval it is hoped that the people of Japan will tire, not of their victories, but of the resulting expense. While the sympathy of the outside world is naturally with the plucky and progressive Japs, it is to be feared that, should the war end in the dismemberment of the Chinese Empire, it will be difficult to keep the foreign Powers out of the contention.

A conscienceless plumber discovered a case of rare old wine in the cellar of the house of a prominent temperance woman in Mount Vernon, New York, and probably with the intention of removing the temptation from one engaged in a good work, wasted no time in consuming the contents To conceal the theft he refilled the bottles with water colored with indigo blue, and when the temperance lady tapped one a few days ago her ire was so aroused that she forth with swore out a warrant for the plumber's arrest. The result was a complete exposure of the lady who has not been following her own preaching, while the plumber pays up and considers the joke all on his side.

Pure wantoness seems the only term to apply to the strike at the Prospect shaft, near Wilkesbarre. A few days ago it appeared as though the men had grievance, but a committee of their own number found otherwise. Hence work which has been stopped pending in vestigation was reenmed. Then, twenty-four hours later, without warning and without assigning any reason, the men again went out, and are now reported to be endeavoring to spread disaffection in other collieries. These men can hardly expect sympathy from either the public or their fellow workmen.

THE twenty thousand men Master Workman Connelly promised would be in a great labor demonstration in Brooklyn yesterday dwindled to about two thousand when the time of meeting arrived. There had been before hand some sharp criticism of the city officials that active measures were not being taken to suppress the gathering, but events showed the authorities knew what they were doing, for the regular police force had no difficulty whatever in dispersing, in a very few minutes, the crowd of strikers and their sympathizers that assembled around City Hall.

THE Japanese are keeping right at it The capture of Wei-Hai-Wei practically completes their control of the fortified naval stations from which the Chinese could expect to operate their fleet—if, indeed, the Chinese fleet has not already been eliminated from the contest. While it does not bring them very much nearer to Pekin than they are upon the other side of the gulf, it further paralyzes the Chinese power of resistance and strengthens the position from which Japan can makes her own terms of peace.

Interesting State Notes.

Gold is rapidly disappearing from circulation in the business centres of the state.

Lebanon has a handkerchief factory, where such products are made by the carload.

In Reading last year the births numbered 778, a decrease of 132 over the previous year.

An exhibition of food products is to be given in the Park hotel, Williamsport, this month.

Much objection is urged against trolley companies in cities salting their tracks to clean them of ice and snow.

The ice men of York are preparing to ship large quantities of the product to Baltimore and other southern cities the coming summer.

The election of women to be school directors will be one of the marked results of the February election in all parts of the state.

In all parts of the state it is conceded that January, 1895, was colder and marked by more snow than was a like period for many a year.

Some hog cholera has made its appearance in the eastern counties of the state, farmers in some instances losing all the swine on their premises.

A disease in the hoofs of horses has made its appearance in some northern counties, which is attributed to the intensely cold weather of January.

The tin plate manufacturers in the western part of the state are striving hard to combine for the purpose of securing their interest in legislation.

The severely cold and inclement weather of January lessened the attendance in public schools in the rural districts as it had not been reduced in years before.

Martin Stelmock received injuries while working at the Henry Clay colliery, near Shamokin, Tuesday afternoon, which, in all probability, will result fatally.

The Pennsylvania Food Fish Protective association is appointing deputies to act in its interests in all parts of the state, who will go on duty early in the coming spring.

Lancaster county and city have a full share of the dis[illegible] in the state, the majority of which are for the severance of the bonds of wives from worthless husbands.

The 3 year old child of Timothy Donovan, of Athens, Bradford county, was severely burned a few days ago. He was playing with a lighted candle and set fire to his clothing.

Hotel and restaurant till tapping is so adroitly carried on that some proprietors are compelled to close their places, because their receipts are not sufficient to meet their expenses.

The police of Williamsport are vigofously supervising the manner in which billiard and pool rooms are conducted in that city for the purpose of detecting and stopping gambling.

An old man, penniless and almost unknown, died in the Lehigh county alms house last Monday, who in his day of vigor was one of the best known men in that part of the state. His name was William Berndt.

There were never as many scoundrels engaged in robbing, both intelligent and ignorant people, as are now plying their artful deeds in all parts of the state, and it really seems as if people were waiting to be filched by such scamps.

Improved Locomotive.

The prettiest locomotive that was ever run over the Buffalo, Rochester and Pittsburg road passed through DuBois a few days ago. It was engine No. 1, just brought out of the shops at Rochester, rebuilt from the rails to the top of the smoke stack. The locomotive is modeled after engine No. 999, of the New York Central, which was on exhibition at Chicago during the world's fair. One of the new features about the engine is that it carries an arc light for a headlight, which is about as brilliant as the big search lights that were in use at the late world's fair. The dynamo that furnishes the electricity for the lights is located on the engine and has sufficient power for furnishing light to illuminate a passenger train. Superintendent Turner states that on a straight track the engineer could see a man two miles ahead and that on an air line a man standing five miles from the headlight could look at his watch and tell the hour. Another feature of the engine is that the bell can be rung by air pressure, the same as the brakes are operated. The locomotive hauled two special coaches carrying the officials of the road who were on a tour of inspection of the road and mines of this region.

Fill Up the Treasury.

The House, when it takes up the currency question to-day, has one duty which overtops all others. The gold parity of every dollar issued must be preserved. Without this panic will come. With this all else can be arranged in the future.

Democratic blundering and incompetency have left only one way to do this—the sale of bonds. Now that the credit of Government due bills payable in gold is challenged these due bills must be backed with bonds. When promises to pay gold without interest are discredited a bond to pay gold with interest are must be brought forward in support of the due bills.

This is all there is to the present situation, and it points in the absence of any other feasible method to a bond issue at a low rate. An increase of revenue would be better, but there is no time for that with panic near and a Democratic majority at Washington. Nothing is left but to sell bonds. Bonds can be issued under the resumption act of 1875, but the favorable action of Congress will probably make a difference of 2 or 2 1-2 per cent. in the interest on the bonds, and this action ought to be given this week, promptly and by the vote of both parties. When the credit of the Government is at stake there are no parties—or there would not be if it were not for Democrats like Senator Vest, who are ready to secure a silver standard at the expense of bankruptcy.

But a bond issue, while necessary and indispensable, is only a temporary expedient. It relieves the present strain. It cures nothing. The evil will inevitably recur as long as the current revenue is insufficient for the current needs of the Government. The present situation would not exist if the Treasury had not used for ordinary expenditures the gold reserve set apart to pay Treasury due bills. For a year past and over all the gold received for the redemption of legal tenders and Treasury notes has been paid out to meet appropriations passed by a Democratic Congress, which has cut down the revenue and increased expenditure until the Treasury is bankrupt.

The Gettysburg Bill Passed.

The passage in the Senate yesterday of General Sickles' Gettysburg Park bill insures the realization of a project long cherished (and too long delayed. This great battlefield of the Civil War has received more care and attention than any other, but as neither State nor nation threw over it the mantle of its efficient protection private greed has been able to change and mar its historic aspect, and energy and money which could have been better employed in improving the battlefield have been expended in resisting the encroachment of vandals and in checking the attempt to vulgarize the battlefield by making it an ordinary picnic ground.

Irremediable mischief would have been prevented if the Federal Government had taken charge of the field four years ago. But now the country can feel assured that Gettysburg battle ground is secure from further spoliation. We have no doubt at all that President Cleveland will promptly sign the Sickles bill. His administration has shown sympathy with the attempts to protect the battlefield from trolley encroachments and has given it most effective backing. Three national parks have now been provided for by Congress on the sites of battlefields. Chickamauga, the first, will be dedicated next Fall. The Shiloh Park act is only a little ahead of the Gettysburg bill, and that battlefield cannot so soon be put in shape for dedication. No preliminary work has been done there, as has been done in Gettysburg by the concurrent action of many commands, the Gettysburg Battlefield Memorial Association and latterly by the Gettysburg National Commission.

What is the Mystery of It?

A Society for the Investigation of Strange Disappearances could add many a curious chapter to the history of human life. Such a society would have a case in that of Philip Hone, "the first gentleman of New York." While out on a stroll with his wife they stepped into a drug store for soda water, and when he crossed the threshold going out, she was so close to him as to be able to lay her hand on him, but the moment he crossed it he disappeared. There was no crowd on the sidewalk in which he could hide, and no doorways near into which he could dodge; he simply vanished as from the earth. A week has passed, and not a trace of him has been discovered. Of course, the police and detectives have done their best, but they do not seem to have succeeded n so much as making out a theory of his disappearing. The day was when such a thing would have been set down as miraculous, and hardly less it seems. It is only one of many such disappearances, which science ought to try to explain.

IT is but natural that Cleveland should look to the Republican members of Congress to help him out in his financial scheme. His own followers have been tried and found wanting.

WEATHER PREDICTION.

The Dry Period This Spring will Be Later Than Usual, Says Foster.

My last bulletin gave forecasts of the storm wave to cross the continent from Jan. 1 to Feb. 4 and Feb 6 to 10. The next will reach the Pacific coast about Feb. 11, cross the western mountain country by close of 12th, the great central valleys from 13th to 15th and the eastern states about the 16th.

This disturbance will be at its greatest force west of the Mississippi river, and the greatest precipitation will occur east of that river. The warm wave will cross the western mountain country about the 11th, the great central valleys about 13th and the eastern states about 15th. The coo wave will cross the western mountain country about 14th, the great central valleys about 16th and the eastern state about 18th.

SPRING DROUGHT.

The spring drought will begin a little later than it did in 1894. All the country east of the meridian 100 and north of the 40th degree of north latitude, also the country east of the Mississippi and north of Tennessee and North Carolina, will experience a drought in April and May. Not every locality in the country will be dry, but a large portion of the country mentioned. In a larger potion of the country east of the Mississippi river and south of the Kentucky and Virginia an excess of rainfall will occur in April and May. Readers must not construe the above to mean that a universal drought will occur in the north and a universal flood in the south. It simply means that a deficiency will occur in the northeast as a whole and an excess in the southeast as a whole. have not yet determined what will be the rainfall for April and May between the Rockies and parallel 100. That country is in doubt.

The above forecast is not reliable for any one small locality, and it can only serve as an indication as to what the general effect on crops will be from a deficiency northeast and an excess southeast. Farmers [illegible] determine what crops will pay best with such weather conditions in the two spring months. The crop season of 1895 will be one of the most remarkable and uncommon that has occurred for years.

Check Money and Bank Notes.

Money is one of the tools of trade, but in all banking transactions, for instance in the United States, metallic and paper money are used only to the extent of about 6 per cent of the whole.

How is the place of money taken as to the other 94 per cent?

It is made up of checks on banks, bank drafts, and other like instruments of exchange.

The business of the United States, then, is done to this great percentage by bank machinery, which has grown to its present perfection as a result of the operations and development of commerce through the ages. The bank is as much the machine of trade as money is its tool. If this machinery did not exist, it would make necessary the use of actual money in every transaction. This great business is done with immense economy by banks, safely, smoothly, and in fabulous amounts.

Actual coin is used to an extent of about 1½ per cent, paper money to about 4½ per cent, but the other 94 per cent is just as much in effect money as if it were actually coin. Let us call it check-money if you please.

The check-money, then, is used for the larger transactions, and paper money and coin for the smaller.

What is the diference between check-money and bank-notes?

The first is an order of the depositor on the bank to pay a large sum, the second is an order of the bank on itself to pay a smaller sum; ineffect there is no difference. One is payable to order, the other to bearer; one is as safe as the other, as convenient and as justifiable.

Commerce is to-day using check-money to an extent of 94 per cent. out of 100 per cent. of its transactions. Is there any objection to giving it the privilege of using 4½ per cent. more and furnishing, through perfect Bank machinery adapted for the purpose by the experience of all time, all the paper money needed?—(*Wm. C. Cornwell in February Forum.*)

Interesting State Notes.

Runaway motor cars are not uncommon in cities in which electric railroads are operated, and the events cause great alarm on highways.

John Barnes, of Wrightsville, York county, accidentally shot himself while handling a revolver, the wound being only painful and not serious.

Dr. J. S. Torbett, a prominent physician, died at Driftwood, Pa., on Wednesday morning, of typhoid fever. He was formerly a resident of Williamsport.

The McDonald Connelly fight at Shenandoah on Wednesday evening ended at the fourth round. Referee Clarey, of Mahanoy City, declared the battle a draw.

Rivalry among telephone companies in Johnstown may culminate in litigation, which will be costly to the litigants and profitable to the attorneys on both sides.

Cases of diphtheria lately occurred in Johnstown which were not reported to the board of health, and the premises in which the children live were open to all visitors.

Chicken stealing has become so common and extensive in some parts of the Schuylkill valley that farmers keep nightly watch on their premises to resist such offenders.

Less deer and bears are now shot in Pennsylvania than ever were taken by hunters in the same locality. It is a rare occurrence to see or shoot a bear in any part of the state.

Charles Adams, of Johnstown, Cambria county, had his head badly battered by an irate husband last Monday, with whose wife he was discovered in the act of being too familiar.

Mr. J. W. Detweiler, of near Mount Joy Lancaster county, has reported to the Lancaster city police headquarters that 250 chickens were stolen from his farm on Wednesday night last.

The names of those who remonstrate against the granting of a liquor license are printed in some parts of the state as a retaliation for publishing those who recommend such places of refreshment.

A Terrible Explosion.

Providence, Feb. 4.—Patrick Hehir, fifty years of age, and his cousin, John Hehir, thirty-five years of age, Michael Dary and William Morton, a boy, were killed, and fifteen injured by the explosion of a boiler at Earl, Carpenter & Son's ice houses at Mashaupaug this morning. At the time one hundred men were standing about the engine house waiting for orders to begin harvesting. The first cake of ice had been carried ten feet on the run, when the endless chain caught, and at the same instant the boiler exploded. The driving wheel was [illegible] 200 feet in the air and falling, struck the run, demolishing it. Portions of the engine were thrown 400 feet over the ice houses. Of the injured, Thomas Casey is the only one that is thought will die.

A Clear Field for Foraker.

Columbus, O., Feb. 4.—For the past six months the friends of ex-Gov. Foraker, in Ohio, have been led to believe that Gov. McKinley would be a candidate for United States Senator to succeed Senator Brice. The Legislature to be elected this year will name Brice's successor. McKinley's candidacy would have opened up the old Sherman-Foraker fight in this State. Gov. McKinley said to-night:

The talk about my being a candidate at this time for the United States Senate is unwarranted. I am not a candidate, and if I were I would very frankly state my position to the public and go into the contest in an open and direct manner.

STOCK AND PRODUCE MARKETS.

Closing Quotations of the New York and Philadelphia Exchanges.

NEW YORK, Feb. 5.—As a result of today's trading on the Stock Exchange a majority of the shares dealt in show declines ranging from ¼ to 2¼ per cent., the heaviest loss being in Cordage guaranteed. There was no special activity in the market at any time. Closing bids:

Lehigh Valley	33	W. N. Y. & Pa.	55¾
Pennsylvania	50¾	Erie	10¼
Reading	9¾	D., L. & W.	160¾
St. Paul	56¼	West Shore	105
Lehigh Nav.	47	N. Y. Central	99¾
N. Y. & N. E.	30¾	Lake Erie & W.	16
New Jersey Cen.	88¼	Del. & Hudson	129

General Markets.

PHILADELPHIA, Feb. 5.—Flour weak; winter super., $2@2.15; do. extras, $2.20@2.40; No. 2 winter family, $2.40@2.50; Pennsylvania roller, straight, $2.50@2.65; western winter, clear, $2.40@2.60. Wheat higher, quiet, with 56¼c. bid and 57c. asked for February. Corn quiet, firm, with 45¼c. bid and 45½c. asked for February. Oats dull, unchanged, with 35½c. bid and 36c. asked for February. Hay steady; good to choice timothy, $12@12.50. Beef steady. Pork steady. Lard firmer; western steam, $6.80. Butter quiet; western dairy, 10@15c.; do. creamery, 11@24c.; do. factory, 9@14c.; Elgins, 24c.; imitation creamery, 10@18c.; New York dairy, 10@18c.; do. creamery, 13@19c.; Pennsylvania creamery prints, fancy, 25c.; do. choice, 24c.; do. fair to good, 18@21c.; prints jobbing at 26@29c. Cheese dull; New York large, 9@11c.; do. small, 9½@11¾c.; part skims, 3@9c.; full skims, 2@2½c. Eggs firmer; New York and Pennsylvania, 20c.; ice house, 19@23c.; western fresh, 20c.; southern, 20@23½c.

Live Stock Markets.

NEW YORK, Feb. 5.—European cables quote American steers at 11@12c., dressed weight; refrigerator beef at 9@10c. Calves steady; poor to prime veals, $4.50@7; barnyard calves, $2@3.50; western calves, $2.25@2.75. Sheep and lambs active; inferior to prime sheep, $4@4.75; fair to choice lambs, $5.50@5.85. Hogs steady at $4.30@4.70; pigs, $4.75.

EAST BUFFALO, Feb. 5.—Five loads of fat Texas heifers sold at $4@4.25, and a load of good fat 1,070 lb. steers brought $4. Hogs fairly active, and higher for good hogs of all kinds, and all were readily sold. Yorkers, choice corn fed, $4.35@4.40; mediums, $4.35@4.40; good heavy, $4.35@4.40; rough, $3.50@3.90; stags, $3@3.25. Sheep and lambs steady and firm for all but export sheep; choice export wethers, $4.25@4.75; fair to good mixed sheep, $3.50@4.25; common to fair, $2@3.25; good to choice lambs, $5.35@5.65; fair to good, $4.85@

A WEEK'S NEWS CONDENSED

Thursday, Jan. 31.

Crawford Crosby, alias Cherokee Bill, Bill Cook's successor, was captured at Nowata, I. T.

Peter Olsen, his wife and three children, together with a hired man, were burned to death at their home near Sterling, N. D.

John M. Thurston, the new senator from Nebraska, arrived in Washington last night, and is staying at the Arlington hotel.

Near Birmingham, Ala., Wiley Clements and Joshua Hughes, mine bosses, were fatally shot by Bud Jones, a discharged negro miner. Jones escaped.

Senator Harris introduced in the national senate a bill to retire Supreme Court Justice Jackson, probably on account of the latter's ill health.

Friday, Feb. 1.

The noted society leader of New York and Newport, Ward McAllister, died at his New York residence, aged 64.

Five robbers held up a train on the Southern Pacific road near Wilcox, Ariz., and escaped with $50,000 to $75,000.

George M. Grant had both legs cut off and his son William lost an arm while crossing railroad tracks at Jersey City.

Judge E. Rockwood Hoar, ex-congressman and brother of Senator Hoar, died at his residence in Concord, Mass., aged 79.

While endeavoring to save her year-old twins from a fire in her Philadelphia home, Mrs. Singlinger and the babes were burned to death.

There has been a desperate battle between government troops and rebels in Colombia. The rebels were repulsed after 200 of them were killed.

Saturday, Feb. 2.

At Fresno, Cal., yesterday, Directly lowered his pacing record to 2.07¼.

Baltimore's grand jury indicted street railroad companies for neglect to provide safety fenders.

Rev. S. M. Brown, a Baptist minister at a Sunday school convention at Kansas City, Mo., declared that the Sunday school had outlived its usefulness.

At Lincoln, Neb., Judge Dundy quashed fifteen indictments recently found against ex-Congressman C. D. Dorsey for his part in wrecking the Ponca National bank. The remaining indictment charges false entries.

Monday, Feb. 4.

Samuel A. Miller, of Louisville, at Asheville, N. C., while suffering with melancholia, threw himself beneath a train and was killed.

Mary Johnson was convicted of poisoning [illegible] at Allegheny, to secure insurance money, and sentenced to life imprisonment.

To get his governship case in court, Captain Kolb, of Alabama, will pardon a condemned murderer, and if the sheriff ignores it the courts will be appealed to.

Ex-Queen Lilliuokalani is under arrest at Honolulu for alleged complicity in the recent uprising. Dynamite was found in her house. She will probably be banished.

While a Mr. Daniel was out riding with Rachel Howard at Brenham, Tex., he was shot and killed by Jackson Howard, the husband of Rachel. The woman was fatally wounded.

Tuesday, Feb. 5.

There is terrible destitution among farmers in Kansas and Oklahoma, and aid is greatly needed.

At Cullman, Ala., eleven leading citizens are on trial for murder for lynching John and Monroe Evans.

A "Lexow" crusade has started in Omaha, Neb. It is stated that several policemen are worth from $50,000 to $100,000.

The London Times announces the death in that city of Mr. Ralph O. Ruby, American vice and deputy consul at Belfast, Ireland.

By the explosion of a boiler in an ice house at Providence, R. I., Patrick and John Hehir and Michael Davy were instantly killed.

Wednesday, Feb. 6.

The National Farmers' Alliance is in session at Raleigh, N. C.

Reports from all sections show that the present cold snap is the most severe of the season.

The steamer La Gascogne has not yet arrived at New York, and there is increasing anxiety.

A reconciliation is being arranged between Prince and Princess Colonna by Mrs. Mackay, the princess' mother.

Fire in Utica, N. Y., last night caused property loss amounting to $105,000. The severe cold caused great suffering among the firemen.

A Cleveland Heroine.

CLEVELAND, Feb. 2.—A frail wooden dwelling house, occupied as a hospital, caught fire yesterday, and almost before the terrible situation could be realized four lives were destroyed by the flames. It was the Deaconess hospital, a branch of the Christian Institute, of Chicago, established last October in a two and a half story house on Jennings avenue. In it were twelve patients, four nurses and four laundry girls. All escaped except Jacob Krause, a cripple, 60 years old; Samuel Almyer, 39; Walter Clark, an 8 months-old foundling, and Minnie Baumer, a nurse, aged 22. Miss Baumer might easily have escaped, but refused to leave Almyer, her patient.

One Way of Making Evidence.

BALTIMORE, Feb. 6.—Patrolman Reth was swearing in court that he had found policy slips and drawings in the home of his prisoner, Henry Stockman, when he was interrupted by Patrolman Rochefort, who cried out: "Hold on; that's not right. I saw you take those slips from your right hand side pocket and put them under the books where you claim to have found them. I will not perjure myself to make a creditable record for you." Patrolmen Reth and Rochefort were specially detailed a few weeks ago to institute a policy crusade.

AN OCEAN DISASTER.

The North German Steamer Elbe Goes Down in Collision.

London, January 30.—The North German Lloyd steamship Elbe, bound from Bremen for New York, was sunk in a collision with a small steamer fifty miles off Lowestoft early this morning. She carried 380 souls. But twenty-one survivors have been landed, but a few others may still be afloat in one of the ship's small boats. At 10 o'clock this evening the number of lives lost was given out as 350.

The survivors of the wreck were landed at Lowestoft by a fishing smack at 5.40 this evening. They are: Stollberg, third officer; Neussell, first engineer; Weser, paymaster; Schultheiss, Linkmeyer and Sitting, assistant paymasters; Furst, chief stoker; Vioebe, steward; Wenning, Singer and Seibert, sailors; Dreson and Batko, ordinary seamen; Dehards, German pilot Greenham, English pilot; Hoffman, Lugen, Schlegel and Vevera, of Cleveland, O., saloon passengers, and Bolthen and Miss Anna Bueker, steerage passengers.

Hoffman's home is in Nebraska. His wife and boy went down with the ship. All of them were in a pitable condition. The passengers were but half clothed. Their few garments were frozen stiff, their hair was coated with ice, and anxiety and effort had exhausted them so completely that they had to be helped ashore. The officers and sailors were fully dressed, but their clothes had been drenched and frozen and they had been almost paralyzed with cold and fatigue. They had been ashore three hours before they had recovered sufficiently to tell the story of the wreck. Their accounts agree upon the following points:

The Elbe left Bremen on Tuesday afternoon. The few hours of the voyage before the disaster were uneventful. It was near 6 o'clock and the Elbe was some fifty miles off Lowestoft, coast of Suffolk, when the lookout man sighted a steamer of about 1,500 tons approaching. He gave the word and as a precaution the number of rockets was doubled and they were sent up at short intervals. The warning was without effect. The steamer came on with unchecked speed and before the Elbe could change her course or reduce her speed noticeably there was the terrific crash of the collision. The Elbe was hit abaft her engine room. When the small steamer wrenched away an enormous hole was left in the Elbe's side. The water poured through and down into the engine room in a cataract. The room filled almost instantly. The engines were still and the big bulk began to settle.

Peace Again in Brooklyn.

Brooklyn, Jan. 30.—More troops were withdrawn from the streets of Brooklyn to-day. All but a few companies of the Second brigade were ordered to their armories and held there in reserve. The strike is over. The places vacated by the strikers have nearly all been filled and every trolley line in the city was in operation to-day.

At Albany to-day Attorney General Hancock heard the petition of the counsel for the strikers that he would begin an action to annul the charter of the Brooklyn Heights Railroad company for failure to run its cars. Counsel for the company pleaded for delay and the Attorney General gave them until Monday to put in answering affidavits.

Police Justice Walsh this afternoon decided to issue a summons for President Norton and Supt. Quinn, of the Atlantic Avenue Railroad company, to appear before him to-morrow and answer the charge of violation of the 10-hour law.

Found in a Poorhouse.

Columbus, Jan. 30.—A family which had been separated for 20 years was reunited to-day in a strange manner. In 1876 Frederick Smith, a gardener of this city, became an invalid as a result of a stroke of paralysis. He was a widower with several small children, who were cared for in a charitable institution for a short time and then adopted in various homes.

One of the boys, Fritz, was taken by a farmer, who afterwards moved to Illinois. Several weeks ago Fritz went East with a carload of stock, and on his return stopped at Columbus and determined to make an effort to find his relatives, of whom he had not heard since their first separation. Several days spent in search of information availed nothing, and then he decided to advertise for the address of his father. The result was that he found his sister Katie, who was employed at the home of a prominent architect. From her he learned that his father was in the county infirmary, helpless from sickness and advancing age. The reunion was an affecting one.

Women Will Vote.

Chicago, Jan. 30.—Word has just been received from the President of the W. C. T. U., Mrs. Nicholas, of Prospect, Adelaide, South Australia, that the adult suffrage has been carried, giving women the right to vote on the same terms as men, and with no barrier to a seat in Parliament. The bill now only awaits the Queen's consent.

Mrs. Nichols: "It is a grand victory for a hard and well-fought battle of seven years, in which the Women's Christian Temperance Union has done its fair share of the fighting." The bill was carried by a majority of 17, being three votes to spare above the constitutional majority needed.

Signed by the Governor.

Harrisburg, Jan. 30.—Gov. Hastings to-day signed the bill which passed both houses of the Legislature providing for the repeal of the act of 1862 requiring that all unexpended balances in appropriations be placed in sinking funds of the city of Pittsburg.

The Governor has appointed Col. E. D. Morrell, of the Third regiment, Philadelphia, Inspector General in place of Col. McKibben, of Pittsburg. Gov. Hastings will announce his personal staff to-morrow. Henry Hall, of Pittsburg, is on the list of members of it.

To Kill All the Seals.

The sub-committee of the Ways and Means yesterday heard testimony in favor of the Dingley bill to permit the government to kill all the seals of the Pribylov islands unless some arrangement can be made with Great Britain for the better protection of them. What an outcome that would be of all the weary negotiations and long-drawn-out international arbitration for the preservation of them! And if it should be, what an aching void it would leave in the female heart! To be sure there are other seals than those of the Pribylov islands, but if these were destroyed the price of sealskin sacks would go up out of sight, and thousands of fair ones be denied one of their chief joys. However lowly her lot, there is perhaps no young woman who does not dwell fondly on the day when she will have a sealskin sack. That she may look like a fright in it—which a great many women do—makes not a particle of difference. She does not believe that she will. None of them do, and it would be a pity to undeceive them. To try to, indeed, would be useless, as more than one man can testify, remembering his vain efforts to protect his pocket book. If it were put to a vote of the men, a proposition to kill all the seals and tan their skins for leather would probably carry.

The "Black Crook."

The "Black Crook" company, a superb aggregation of artists, held the boards at Garman's opera house Wednesday night and played to a full house, some of the best people of the town being present. Those who were afraid to go missed one of the best operatic treats that has ever been seen in Bellefonte as the entertainment throughout was gilt-edged. The scenery, mechanical and electrical effects were beyond the powers of description, while the costuming was rich, beautiful and elegant; and the entertainment throughout was one that could be witnessed by the most refined and cultured lady in the land. If ever the company returns to Bellefonte, and we hope they will, the opera house will not hold the people who will want to attend.

For Fixed Salaries.

A bill was introduced into the house yesterday which fixes the pay of election boards as follows: For 300 or less votes $3; for 300 and over 400, $4; for 400 and over 500, $5; for 500 or less than 600, $6; 600 votes or less than 1,000, $6 50.

Another bill introduced provides that district attorneys shall be salaried. It fixes the salaries of such officials in counties having a population of 10,000 and less at $500 annually, and over 10,000 an additional $100 for every 5,000 inhabitants.

A Big Deal in Timber.

Brockwayville, Pa., Jan. 31.—Buzard & McCann have purchased 3,000,000 feet of timber from a tract adjoining the one they are finishing up. The purchase ends a dispute of many years standing. Both John Alexander, of Philadelphia, and the Ellis estate claimed the tract, and it has been the subject of much costly litigation. A representative of Mr. Alexander came from Philadelphia last week and arranged satisfactory terms by which the land and a portion of the proceeds of the timber sale went to the Ellis interests. The timber was then sold to Buzard & McCain.

A GHASTLY DISEASE.

Different Doctors Give It Different Names.

The Result Always the Same.—Speedy Death.—Until Recently, Considered Hopeless.—Now, New Methods. Salvation.

Nothing is more alarming than diseases of an ulcerous nature. A continual gnawing away of life-generating tissue, until a vital spot is reached, an artery is severed, or from sheer weakness death ensues.

Especially in Gastritis—ulcers of the stomach—is terrible suffering experienced. The symptoms, though not at first alarming (seemingly a slight attack of indigestion), gradually become worse, so that no nourishment can be retained on the stomach, and unless the trouble-causing ulcer produces death by perforation, the patient

Dies of Starvation.

In Consumption, where the ulcers attack the lungs, the termination is very similar, as it is, in fact, in any of the wasting diseases to which are given various names, according to the organs affected.

By the methods of physicians of to-day thousands of lives are being saved in cases that a few years ago were considered hopeless. The first step now taken to effect a cure is to make new blood and tissue, give the patient strength, and keep him "on the gain" by administering Bovinine.

Bovinine is not a medicine, but a greatly concentrated extract of the most vital elements of lean raw beef. The life-maintaining qualities of this wonderful preparation are simply marvellous. Dr. A. M. Cook, of New Castle, Pa., states that he maintained life in his wife, while suffering from gastric ulcers, for three weeks without giving her anything through the mouth, injecting Bovinine instead.

With such results as this, it is not to be wondered at that Bovinine is indorsed by physicians everywhere, and has become recognized as the greatest factor in saving life, hastening recovery from sickness, and warding off disease, ever given to man.

DOINGS IN COURT.

Considerable Business Transacted. A Brief Summary.

Tuesday afternoon and part of Wednesday morning was taken up with the trial of the civil case of E. R. Chambers vs. William Askey, an action to recover fees for presenting a license application. Verdict for the plaintiff in the sum of $94.01.

Com. vs. George Clune, disturbing religious meeting. Found guilty but recommended to the mercy of the court. He was sentenced to pay a fine of $1 and costs.

The case of the Commonwealth vs. Jack Johnston and others, riot, unlawful assembly and assault and battery, was then taken up. This was the case against the colored party that raised a disturbance on the Tyrone & Clearfield train on the 15th of December. Conductor L. A. Haupt was the prosecutor. Evidence for the Commonwealth was given by Wm. Senser, G. I. McOakren, Charles Gray, William L. Study, Ferdinand Lawheiffer, Edward B. Shaw, Conductor Allison Haupt, Joseph Thomas, John H. Beck, and Charles Swigart, all of whom corroborated the fact that the row was started by Jack Johnston, and then taken up by the balance of the party. It took all of Wednesday to hear the evidence for the Commonwealth. The case for the prosecution was conducted by District Attorney Singer assisted by John Blanchard.

Thursday morning W. E. Gray and Ira Mitchell, Esq., opened the case for the defense. John Newberry, Jack Johnston, William Gaston, William Walker, Walker Charles, Wm. T. Scott, James Wheeler, Guss Hossman, and Rose Scott, all parties on trial, testified in their own defense, admitting that they were implicated in the row, and that they had been drinking, but one and all denied as having started the fight, or of having any knowledge of who started it or how it was started. The case was still on trial when court adjourned Thursday noon.

In the case against the colored brethren who were implicated in the row on the train the jury returned a verdict against Jack Johnson, James Johnson and John Newberry of "guilty as indicted." William Walker and William Tascal were convicted on the first and second count and Walter Charles and James Wheeler were acquitted.

William Swain, convicted of assault, was sentenced by the court to pay a fine of $5, costs of prosecution and stand committed until the sentence was complied with.

Grand Jury Report.

To the Honorable, the Judges of the Court of Quarter Sessions of the Peace in and for the county of Centre. The Grand Inquest of the Commonwealth of Pennsylvania, inquiring for the county in all matters relating to the same do respectfully report: That we have acted upon 18 bills of indictment, and that 17 were found true bills and one was ignored. We beg leave to further report that we have visited and inspected the county buildings, and our observations prompt the following suggestions At the county jail the roof needs repairing and the wood work repainting as it is in a very dilapidated condition. The inside is in a clean, neat and good condition. We recommend the removal of the gallows from the inside of the jail and the painting or papering of the vestibule and the repairing of the walls around the jail yard. At the court house we recommend that larger and more commodious rooms be provided for the grand and traverse jurors and also a room provided for witnesses. From the appearance of the ceiling in the court room the roof of the building is in bad condition, and should be repaired. The offices are all in good condition except the arbitration room, and the District Attorney's room, which need papering. We find that the building is not sufficiently heated and recommend the Commissioners to make better provision for the same. We respectfully tender our thanks to the Honorable Judges and District Attorney, for their courtesy and assistance rendered us during our deliberations.

Reformed Sociable.

The Reformed church will hold a sociable this evening at the residence of Mr. and Mrs. Thomas Moore, on the corner of Spring and Bishop streets. The bill of fare for the evening will include Oysters in every style, coffee and sandwiches, ice cream and cake, fruit, confectionery, etc. We are assured that this will be one of the pleasantest of these occasions held this long time. Everybody is not only invited, but urged to attend. If you fail to be there you will regret it.

Mr. Stine is Improving Rapidly.

The condition of Mr. D. C. Stine, who was so seriously hurt about ten days ago, while inspecting cars for the C. R. R. of Pa. is so much improved as to encourage strong hopes for his speedy recovery. At first it was feared his injuries would prove fatal, but we are pleased to announce that already he is able to sit up an hour or so during the day.

Compulsory Education Bill.

There is a compulsory education bill ready to be launched upon the Legislature. The word compulsory and arrest do not appear in the bill. It is a complete blind on those points. It requires parents and guardians of children between the ages of eight and fifteen years to attend a private or public school for at least sixteen consecutive weeks each year. A violation of the proposed act shall be a misdemeanor, punishable for the first offense by a fine not exceeding twenty-five dollars, and for each subsequent offence by a fine not exceeding twenty-five dollars, or by imprisonment not exceeding thirty days or both, at the discretion of the court.

Good Words for the Newspaper.

At a recent business convention Governor Francis, of Missouri, who is in a position to know whereof he speaks, paid tribute to the local newspaper as follows:

Each year the local papers give from $500 to $5,000 in free lines to the community in which it is located. No other agency can or will do this. The editor, in proportion to his means does more for his town than any other ten men, and in all fairness with men he ought to be supported, not because you like him or admire his writings, but because the local paper is the best investment a community can make. It may not be brilliantly edited or crowded with thoughts, but financially it is of more benefit to the community than the teacher or the preacher. Understand me. I do not mean mentally or morally, but financially, and yet on the moral question you will find most of the local papers on the right side. To-day the editors of the home newspapers do the most for the least money of any people on the face of the earth.

Testing a Powerful Engine.

Pennsylvania railroad officials, says yesterday's Philadelphia Times, are testing at Altoona a large, powerful eight-wheel passenger engine, just turned out of the shops after designs prepared by Superintendent of Motive Power Casanave, of the Pennsylvania road. Six of these engines are to be built to run between Indianapolis and Columbus, hauling the fast express trains. With the taking effect of the spring time-table the time between St. Louis and Jersey City will be considerably shortened. It is expected that these new engines will, with five or six cars, outrun any locomotive yet built in the shops at Altoona.

The forestry Commission bill passed second reading in the House yesterday, but in an emasculated condition probably designed to make it inoperative. The clause providing for the payment of those who assist the fire wardens was stricken out, as well as that which awards one-half of the fines collected to informers. With no inducement offered to informers, the authorities will be left in blissful ignorance of violations of the law, and with no means to pay helpers to extinguish forest fires and fire wardens will enjoy a sinecure. Meanwhile, the destruction of the forests will go on—by act of the Legislature.

Kissed and Made Up.

Washington, February 1.—An incident highly satisfactory to every member of the senate and of importance to the republican to the republican party in New Hampshire took place this morning in the republican cloak room. It was the reconciliation of Senators Chandler and Gallinger and the wiping out of a feud that has existed for more than eight years, during which time there has been made or less of factional trouble in the republican party in New Hampshire.

When Mr. Gallinger entered the senate March 4, 1861, this feud was at its height and until this morning neither senator has spoken to the other. They talked together five minutes this morning and subsequently, Mr. Gallinger submitted to the senate the credentials of his colleague. So ends this long feud.

For Borough Boards of Health.

Harrisburg, Jan. 31—The State sanitary convention to-day adopted a resolution to enlist all the local boards of health in Pennsylvania to defeat the bill introduced by Representatives Focht, of Union, to repeal the act creating borough boards of health The bill for the establishment of townships boards of health was approved.

Dr. Groff, of the State Board of Health offered a resolution which was adopted, offering a prize of $25,000 to the discoverer of a practical means to dispose of all sewage by precipitation, filtration or otherwise.

Foreclosure to Be Pushed.

Philadelphia, Jan. 31.—John G. Johnson, counsel, for the Pennsylvania Company for Insurance on Lives and Granting Annuities, which is trustee of the Reading railroad general and referred mortgages has completed the task of drawing up the legal papers for the institution of foreclosure proceedings against the Reading road, and will file the bills in the United States Circuit Court some time next week. It is announced that the foreclosure proceedings will be pushed as rapidly as possible.

His Neck Was Broken.

Norristown, Jan. 28.—Philip S. Reed, of Hillegasville, was instantly killed while driving yesterday. Mr. Reed, with his wife and daughter, drove to church. The breeching of the harness broke while descending a hill, and the horse ran away. Mr. Reed, who was driving, held on to the lines in the hope of stopping the runaway, and was pitched out of the carriage, alighting on his head. His neck was broken and he died instantly. Miss Reed was also thrown from the carriage, but escaped serious injury. Her mother, who remained the sole occupant of the vehicle, also escaped. Mr. Reed was the Secretary and Treasurer of the Hillegas Creamery Association.

"WHERE DIRT GATHERS, WASTE RULES."
GREAT SAVING RESULTS FROM THE USE OF
SAPOLIO

A Hospital Burned.

Cleveland, O., February 1.—The Deaconness hospital on Jennings avenue, South Side, was destroyed by fire at noon to-day and four persons are known to have been burned to death. The bodies of a child, two men and a nurse have been recovered. The list of the dead is: William Almayer, Jacob Krause, Annie Baumer, and an 8 weeks old baby.

The fire in the basement, and was caused by defective furnace. It gained such rapid headway that before the fire apparatus responded to the alarm the building was all ablaze. There were about fourteen patients in the hospital, besides a number of employes. The firemen worked bravely and fought their way to the beds through the fire, rescuing many of the patients. Before all the wards could be visited by the rescuers they were compelled to leave the building te save their own lives. Attaches of the hospital were so excited that they could do little towards assisting in the rescue of the patients.

She Used the Gavel.

Atlanta, Ga., February 1.—In calling the woman's suffrage convention to order this morning Miss Anthony used a gavel that was made from a piece of wood that grew at the homestead of George Washington, at Mount Vernon. They called attention to this fact and stated that the yellow ribbon attached to the gavel signified wisdom, a virtue that was deficient in the American congress. Two or three interesting reports were read.

Dr. Shaw created a sensation by stating that she considered the criticism of Dr. Hawthorne beneath the notice of the convention, since he had refused to give any reason for his attack upon a body of strangers, and doubtless because he was not in the habit of entertaining logical reasons on any subject. His speech created intense enthusiasm and seemed to voice the spirit of the convention.

The Total Loss of Life.

New York, February 1.—The North German Lloyds agency in this city to-day received a cable dispatch from the home office in Berlin, which gives the exact number of persons who were on the ill-fated steamship Elbe as follows: Cabin passengers for New York, 44; cabin passengers for Southampton, 6; steerage passengers for New York, 139; steerage passengers for Southampton, 10; captain and crew, 146; postmen, 4; stewardesses, 3; pilots, 2; total, 354. Of these twenty were saved. Total loss of life 334 persons.

Ingersoll Not Dead.

New York, Feb. 1.—A rumor this afternoon to the effect that Colonel Robert G. Ingersoll had died suddenly had prevailed in this city. Mr. Ingersoll was found at his residence about 2 o'clock and said when asked as to how he was feeling: "Never better in my life. It is a queer thing how rumors of my death spread about three times every year. I don't understand it."

A Costly Lawsuit.

The Jeffersonian Democrat, Brookville says. The famous Warsaw township furniture case is ended at last in favor of the school district. It was tried five times in our county court, and went as often to the supreme court. The bill of costs paid by the school furniture company to the school district amounted to over $1,200. The costs, attorney's fees, and expenses connected with the case must have summed up over $6,000. The price of the furniture in controversy was about $900. Such is law.

Does This Mean You?

"The Saunterer" in the Altoona Tribune gets off some good things and here is one of them: The man who spends not less than $20 a year for tobacco complained yesterday that he could not afford to take a daily or weekly newspaper, or a month-magazine. "They cost too much," he exclaimed. "I wouldn't mind paying fifty cents a year for a good paper, but I draw the line at that. "If I can't get one for that sum I'll do without." And then he walked into a handy pool room which had a bar room attachment, and dropped two or three dollars. In the meantime his children are growing up with vacant minds, and since they find few attractions at home are rapidly learning the lessons of the street.

A Bit of Astronomy.

February, 1866, is referred to by astronomers as "the month without a full moon." January and March of that year had each two full moons, while the intermediate month did not have one. Says a writer in astronomical journal, referring to this fact: "Do you realize what a rare thing in nature it was? It has not happened before since the beginning of the Christian era or probably since the creation of the world! It will not occur again, according to the computations of the astronomer royal of England, for—how long do you think? Not until after 2,500,000 years after 1866!"

—Mr. James Barnhart, of the First National bank, is to-day probably as happy a man as there is in Bellefonte. It came last night and is a nice big girl and now Jim knows better than he ever did before whether or not "marriage is a failure." Of course, he is being showered with congratulations, but through it all there seems one little shade of regret—because the girl wasn't twins.

The Human Electrical Forces!

How They Control the Organs of the Body.

The electrical force of the human body, as the nerve fluid may be termed, is an especially attractive department of science, as it exerts so marked an influence on the health of the organs of the body. Nerve force is produced by the brain and conveyed by means of the nerves to the various organs of the body, thus supplying the latter with the vitality necessary to insure their health. The pneumogastric nerve, as shown here, may be said to be the most important of the entire nerve system, as it supplies the heart, lungs, stomach, bowels, etc., with the nerve force necessary to keep them active and healthy. As will be seen by the cut the long nerve descending from the base of the brain and terminating in the bowels is the pneumogastric, while the numerous little branches supply the heart, lungs and stomach with necessary vitality. When the brain becomes in any way disordered by irritability or exhaustion, the nerve force which it supplies is lessened, and the organs receiving the diminished supply are consequently weakened.

Physicians generally fail to recognize the importance of this fact, but treat the organ itself instead of the cause of the trouble The noted specialist, Franklin Miles, M. D., LL. B., has given the greater part of his life to the study of this subject, and the principal discoveries concerning it are due to his efforts.

Dr. Miles' Restorative Nervine, the unrivaled brain and nerve food, is prepared on the principle that all nervous and many other difficulties originate from disorders of the nerve centers. Its wonderful success in curing these disorders is testified to by thousands in every part of the land.

Restorative Nervine cures sleeplessness, nervous prostration, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is free from opiates or dangerous drugs. It is sold on a positive guarantee by all druggists, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid.

BY special arangement with the publishers we are enabled to off SCRIBNER'S MAGAZINE for 1895 and a full years subscription to

The Bellefonte Republican

For $3.75.

If purchased separately these periodicals would cost $4.50.

IT IS THE PLAN OF SCRIBNER'S to give its readers next year a history of the past 25 years in the United States. (1894-95.) These years have been unparralleled in the history of the world for national development and material progress. The narrative will be written in a graphic and picturesque style by President Andrews, of Brown University, and capable artists will illustrate it.

ROBERT GRANT whose "Reflections of a Married Man" will long be remembered, has written a series of articles on "The Art of Living," in which he sets himself to solve, as far as such problems can be solved, questions which beset every well-to-do family: The Income—The dwelling—Household Expenses—Education of Children—Married and Single Life—The Summer Problem, etc., etc. Beautifully illustrated.

GEORGE MEREDITH, whom more than one good authority has pronounced the greatest of living novelists, has written a strong serial, "The Amazing Marriage" to begin in January.

D. HOWELLS, will contribute a novel entitled "The Story of a Play."

IN THE LAND OF DON QUIXOTE will be a series of three sketches illustrated by Daniel Vierge's wonderful drawings.

SINGLE ARTICLES in great variety have been arranged for and the illustrations will be elaborate.

Scribner's For 1895 Will Be Better Than Ever.

If you desire only SCRIBNER'S MAGAZINE remit $3.00 to the Publishers:

Remarkable, Wise or Unwise.

Assuming it to be true, as certain wise ones predict, that Congress will not adopt the President's latest recommendations for the relief of the Treasury, and that, as certain other wise ones predict, business will settle down to a silver basis, what will be the process and effect of that? It is an interesting question, and one of the answers to it is the more interesting because given by a leading New York banker, whose name is not mentioned, but who is supposed to be J. Pierpont Morgan.

Whoever he is, he says the change from gold to silver basis would come slowly, because of the large amount of money accumulated and the small use for it, and coming slowly it would be attended with slight disturbance. Paper would gradually decline until it reached the value of silver. As the purchasing power of paper decreased, and the hard and soft money meet half way. He adds that this change would not be allowed by a premium on gold.

There is the process. As to the effect, the uncertainty which now exists being removed, and money plenty, it would be found good enough to stimulate business. "One thing you may rest assured of, and that is that as soon as it is demonstrated that we are on a silver basis prices of all staples and securities will show a marked, and, in my judgment, an extraordinarily rapid advance."

This view is limited to our domestic interests. Nothing is said about the effect of the change upon our foreign trade. Perhaps because of the conviction that gold will not go to a premium. Indeed the inference is that if business is revived gold will be had for our productions as freely in the future as in the past, when there was such an abundance of it in the treasury that the Democrats raised the cry that something should be done to stop the hoarding. They stopped the production which gave the country command of the gold.

Whatever may be thought of the wisdom of this view, it cannot be thought other than remarkable as coming from a leading New York banker, whether the one conjectured or not.

Postoffice Name Changed.

When the postoffice was established at Hecla, Pa., last year it was named Strunkton, after Isaac Strunk, the first post masmaster and proprietor of the mill at that place. Mr. Strunk sold his property at place and moved to Spring Mills. Persons living in that section did not like the name and sent in a petition to have it changed to "Mingle." The department complied with the request but added "ville" to it, making the name "Mingleville" for the post office at Hecla in Walker township.

—The revival service at the A. M. E. church is still going on every night. There have been ten accessions to the church. Rev. H. A. Grant, the pastor, is preaching a series of discourses on the doctrine of entire sanctification. To-night he will preach his eight sermon on this subject. Everybody invited to attend.

VIGOROUS HEALTH

THE PASTILLE CURE FOR NERVOUS DEBILITY — TRADE MARK

Prof. HARRIS' SOLUBLE MEDICATED Pastille

Has been put up in a proprietary form since 1878, and has been used for years prior to that time in private practice. It is no untried nostrum, of doubtful reputation, but a genuine specific for a very prevalent disease. Thousands of men, of all ages, have at some time in life brought on nervous debility and exhaustion, with organic weakness, by over brain work, excesses, too frequent indulgence or indiscretion and vicious habits, and it is to these that we offer a remedy that will, by its direct action upon the seat of the disease, stop the drain and restore the patient to vigorous health and strength.

Our method of introducing Prof. Harris' Pastille treatment is one which commends itself to all sensible persons—for the reason that we supply it upon their judgment of its value. We ask of our patrons nothing in the way of expense beyond a postal card and a two cent postage stamp. The postal card to be used in sending us their full address and the postage stamp for the letter returning the statement of their case for which we supply them with a question blank, to be filled out, and an envelope addressed to ourselves for use in returning it when filled.

FREE TRIAL PACKAGE

When we receive the statement on blank we prepare eight days' treatment and forward it by mail and prepay postage thereon—and along with the eight days' treatment we send full directions for using. The treatment in no way interferes with a person's attention to business, and causes no pain or inconvenience in any way.

We are so positive that it will give perfect satisfaction that we leave the matter of sending orders entirely with those using the free trial treatment. Having satisfied those sending for trial packages of our ability to benefit their sexual condition we feel that they are more largely interested than ourselves in continuing the use of the Pastilles. Even then we do not attempt to rob them by demanding high prices. On the contrary, we make the prices as low as possible, and the same to all. They are as follows: $3 for one month; $5 for two months; $7 for three months.

Trade Mark.

These prices secure the delivery of the Pastilles by mail. If desired by express we leave the patient to pay the charges. For over ten years we have operated our business upon this plan with satisfactory results.

We ask all persons needing treatment for any of the sexual ills which come to mankind through a violation of nature's laws to send us their address on postal card or by letter and allow us to convince them that PROF. HARRIS' SOLUBLE MEDICATED PASTILLES have merit and are what they need.

All communications confidential and should be addressed to

Lincoln's Theory for the Conduct of the War.

(*Colonel Alexander McClure, in McClure's Magazine for February.*)

His [Lincoln's] theory of the war was that the enemy could be fought much more advantageously on Northern soil than in the South, as it enabled concentration of Northern forces, and diffused Southern forces in maintaining lines of supply; and . . . he had publicly declared his theory that Lee's army was the heart of the rebellion, and that Richmond and other important military centres would be valueless while Lee's army was unbroken. It is known that Lincoln was at first strongly inclined to censure Meade for not fighting another battle at Williamsport [after Gettysburg]. I saw the President soon after the battle, and was amazed at his thorough familiarity with every highway and mountain pass which the armies had open to them. As it was near my own home I knew how accurate his information was, and he questioned me minutely as to distances and opportunities of the two armies in the race to Williamsport. When I asked him the direct question whether he was not satisfied with what Meade had accomplished, he answered in these words: "Now don't misunderstand me about General Meade. I am profoundly grateful down to the bottom of my boots for what he did at Gettysburg, but I think if I had been General Meade I would have fought another battle." He was extremely careful to avoid injustice to any of his commanders, and after fully considering the whole subject, he excused rather than justified Meade for not delivering battle to Lee at Williamsport. Had Meade done so and succeeded, he would have been the great general of the war; but there are few generals who would have fought that battle, with the forces of both sides nearly equal and Lee entrenched.

Interesting State Notes.

Scarlet fever continues to spread in the suburbs of Lebanon.

In towns and parts of cities where the population is sparse, letter carrying is done by men on horseback.

William M. Breslin, the well knwn journalist of Lebanon, is dangerously ill at his home in that city.

Master Ralph Patschke, of Lebanon, while coasting on Monday, had his hip dislocated, his face badly cut and an eye injured.

Hotel proprietors in large cities are compelled to furnish their guests with home slaughtered beef to retain them as boarders.

Lebanon authorities are overrun with applications for arc lights along the streets which they decline to furnish in a major ity of cases.

Henry Zimmerman, of Allentown, while in the act of slaughtering a large pig was thrown by the porker and had one of his legs broken.

A musical reunion of professors and expert musicians will be held at Allentown on the 22d of February, which is expected to be of a highly interesting character.

Very few of the newspapers of the state publish a list of the births in their local ties, while in most cases the marriages and deaths are announced. The effort to record the births has never been popular.

While the canvass for the election of mayor in Philadelphia is warm and persistent as a personal struggle, there is no uncleanness in it as a political fight, and, therefore, nothing to mar the cordial feel ing among citizens of the same locality.

A passenger train on the Cumberland Valley railroad going north on Monday evening struck a sleigh containing Constable Benjamin Alters, of Newville. The sleigh was smashed to pieces and the occupant so badly injured that he had to be conveyed to his home on a special train.

Dr. Joseph L. Lemberger, of Lebanon, is secretary of the board of trustees of the state asylum for the chronic insane, at South Mountain, Wernersville, and attended a meeting of the executive committee of the trustees at the home on Thursday, when Amos Yoker was elected farmer, who has resided on the grounds ever since the institution was established, and is a man of experience.

Legislative Bills Introduced.

A bill was introduced into the legislature authorizing the setting apart of a plot of ground in capitol park, Harrisburg, on which the sixteeners' association can erect a monument to the memory of Hon. A. G. Curtin.

Senator McQuown yesterday introduced a bill providing for a state board of law examine all students and others applying for admission to the bar.

—This is excellent weather for both the coal dealer and the ice man—they can both reap their harvest.

—The village of Aaronsburg promises a sensational trial for the next term of court.

Nearby Notes.

A few nights ago a Philipsburg young man went home late and drank a pint of yeast in mistake for buttermilk. He rose three hours earlier than usual the next morning.

Williamsport will have a pure food exposition, commencing February 12 and continuing ten days.

Forty-seven attorneys practice at the Clearfield bar.

Four residents of Clearfield borough have a total of $145,000 at interest.

A new electric light company has been organized at Hughesville.

Clearfield county will have four weeks of court during February term.

Clearfield county has had sixty-seven divorce cases in three years and a half.

There are on file 339 applications for license to sell liquor in Northumberland county—53 more than last year.

The anti-kissing club that was organized by some Clearfield young ladies is now reduced to two members, and they are of the opposite sex.

Johnsburg has organized a board o trade.

Reynoldsville has fifty-one families on its poor list.

The furnace of the Leesport iron company, at Leesport, has gone out of blast, all the stock on hand having been worked up. The furnace will remain idle for an indefinite period.

The residents of East Hanover township Lebanon county, are experiencing another mad dog scare and all stray canines in the township are being killed. Two valuable dogs belonging to Daniel Boebuck showed symptoms of the rabies and were shot.

H. W. Morse, proprietor of a general store at Johnstown, failed yesterday, with liabilities of $2,100.

Zacharias Torry had an artery in his left arm severed Tuesday by a circular saw while sawing lumber on the mountains near Newmantown.

Frank Peter, an Italian, employed at Dyer's quarries at Howellville, Chester county, had his right leg crushed yesterday by a lump of frozen dirt falling on him.

Misleading Treasury Figures.

It is amazing that Democratic leaders announce that the revenues are increasing For several days the receipts were larger than the expenditures, but for the first half of the fiscal year, for December and for January, there has been a deficit large enough to have caused the trouble which exists at Washington. Here is the statement of the Treasury Department up to January 30. For that month, as given to newspaper correspondents, the general balance is $152,481,000, with $7,196,588 for interest payments and $2,294,851 for bond redemptions to be deducted. The receipts have been $29,472,354 and the expenditures have been $34,386,000, not including bond redemptions.

This is a curious statement. Why should not the bond redemptions be included in the expenditures of the month? Why should not the interest charges and bond redemptions be deducted from the general balance? For several months the Treasury statements have been printed in this way. It would seem that interest and other such payments are regarded as extraordinary and not to be included in the statement regularly. The form of statement may be made to show that the tariff bill produces sufficient income to pay day to-day expenditures Interest, pensions and Pacific railroad bond payments are just as ordinary expenditures as salaries, but the Treasury officials seem to want to create a distinction. It will be seen that the deficit for the month of January with one day to be reported is about $10,500,000.

The Treasury revenues for the month are $5,000,000 more than in December, but the increase came from customs duties, the internal revenue having fallen off. The country is yet to feel the effect of the avalanche of foreign goods which caused this increase.

BEFORE I could get relief from a most horrible blood disease, I had spent hundreds of dollars TRYING various remedies and physicians, none of which did me any good. My finger nails came off, and my hair came out, leaving me perfectly bald. I then went to

HOT SPRINGS

Hoping to be cured by this celebrated treatment, but very soon became disgusted, and decided to TRY S.S.S. The effect was truly wonderful. I commenced to recover after taking the first bottle, and by the time I had taken twelve bottles I was entirely cured—cured by S. S. S. when the world-renowned Hot Springs had failed.

STORMY SCENE IN THE SENATE.

Somes Angry Words Between Messrs Harris and Mitchell.

Washington, Feb. 5.—The opening of to-days' session in the senate was accompanied by a rather stormy scene between two members of the body. An objection was made by Mr. Harris, of Tennessee, to a request of Mr. Mitchell, of Oregon, to be allowed to address the senate in explanation of a report which he proposed to make. The objection appeared to nettle Mr. Mitchell, who remarked angrily that the objection was very unusual. "Very well," said Mr. Harris, "unusual thought it is, I emphasize it."

"Then I withdraw the report," said Mr. Mitchell. "I will not submit it at this time."

"Then withdraw it," said Mr. Harris resentfully.

"It is unusual," Mr. Mitchell persisted, in a still more angry manner.

"I am capable," said Mr. Harris, tauntingly, "of doing unusual things."

Mr. Mitchell appeared to be boiling over with rage and excited as he exclaimed: "I appreciate that the senator from Tennessee is capable of doing unusual and indiscreet and ungentlemanly things."

"Your conduct," Mr. Harris declared, "is contemptible."

"Let the senator do as he pleases about that," Mr. Mitchell added, defiantly.

The vice president called the senators to order, but Mr. Mitchell continued to express his indignation to senators who came around him, and to explain that his purpose had been to present a report in favor of the county sugar claims.

The routine business of the morning hour was then proceeded with. The district appropriation bill crowded out other matters and occupied the remainder of the day's session, the bill being passed before adjournment.

At one point the financial question broke out in the amendment offered by Mr. McLaurin, of Mississippi, looking to the coinage of the silver bullion in the treasury to the amount of the seigniorage ($55,000,000) but the amendment to which it was offered was decided, by a vote of the senate, to be out of order, and Mr. McLaurin's amendment fell with it.

The district appropriation bill was passed the diplomatic and consular appropriation bill was taken up, not, however, displacing the bankruptcy bill, as the unfinished business, and the senate, at .45, adjourned until to-morrow.

Must Not Ride Bicycles.

Wilmington, Del., Feb. 5.—Father Sylvester, of the Sacred Heart Roman Catholic church, has received from Rome an order prohibiting Catholic priests from riding bicycles. It is an order similar to the one applied to Austria, and is issued to save priests who ride from being hurt and from making them the objects of jokes. Bishop Curtis, of this city, is a prominent bicycle rider.

DEPUTY MARSHAL WOOD.

A Man Everybody Knows Tells of His Wonderful Cure by Dr. Greene's Nervura. The Strongest Evidence Possible That This Great Medicine Will Cure You.

DEPUTY MARSHAL, A. B. WOOD.

When such a widely-known public man as A. B. Wood, Deputy Marshal of West Indianapolis, Ind., makes a statement, the world knows that it is true - that he means every word of it. Mr. Wood resides at 91 Marion Ave., West Indianapolis, Ind. He has been cured by the great medicine, Dr. Greene's Nervura blood and nerve remedy, from utter nervous prostration and exhaustion. He deems the cure most wonderful, and the medicine, which cured him a most wonderful remedy. He is anxious, therefore, to tell the world of his remarkable restoration to health, and to thus lead others to health by the use of the same grand remedy.

"I had been troubled," said Mr. Wood, "for twenty years with nervouness, heart disease and gastric catarrh of the stomach, ending two years ago with a complete prostration, and was taken to my bed.

"I was under the care of two eminent physicians. Finally through a friend I was induced to try Dr. Greene's Nervura blood and nerve remedy.

"After taking one bottle I began to improve, and after using three bottles, my usual health was restored. I can now eat anything set before me. I have gained 30 pounds in flesh, now weighing 165 pounds.

"My wife is similarly diseased and is now taking Dr. Greene's Nervura blood and nerve remedy, so far with beneficial results.

"Thus knowing by personal experience the great value of this grand medicine, I write this that others, who have similar troubles, may be induced to try Dr. Greene's Nervura blood and nerve remedy and be cured."

People who are sick or ailing in any way make a serious mistake if they delay a moment longer to use this, without doubt, greatest medical discovery ever made. Even if you have been disappointed because other medicines failed, *we promise this remedy will cure.*

It is not a patent medicine, but the prescription of the most successful living specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West 14th St., New York City. He has the largest practice in the world, and this grand medical discovery is the result of his vast experience. The great reputation of Dr. Greene is a guarantee that his medicine will cure, and the fact that he can be consulted by anyone at any time, free of charge, personally or by letter, gives absolute assurance of the beneficial action of this wonderful medicine.

SEIZED BY CHINA.

Concord Officers Reported in Serious Trouble.

London, Feb. 4.—A dispatch from Shanghai says a telegram has been sent there from Chin Kiang stating that a party of officers from the American warship Concord landed at Chin Kiang for the purpose of shooting game. They by accident shot a Chinaman.

The populace became infuriated and attacked, seized and carried off the whole party.

The commander of the Concord sent an armed force of blue jackets and marines to rescue them at all hazards. Further news in regard to the affair is anxiously awaited.

WHAT IS SAID AT WASHINGTON.

The last despatch received at the Navy Department from the Concord was dated February 1, announcing her arrival at Chinkiang. Chinkiang is about 250 miles from Shanghai and 170 miles from Woosung, which is at the mouth of the Yang Tse Kiang river. Chinkiang is a treaty port and a walled town about four miles in circuit, and is well fortified.

It is thought possible that Commander Craig, of the Concord has been deterred from going ashore to communicate with the department by the feeling which must have resulted from the capture of the Concord's party, if the report of their capture be true. Until something definite is heard from official sources the Navy Department will take no action. The nearest ships that could go to the assistance of the Concord are at Chee Foo, over 600 miles away. Either the Baltimore or Charleston would be able to reach Chinkiang in less than three days. Naval officers fail to see what could be accomplished anyway by the presence of other ships, as the men, if arrested, have probably been taken inland. Unless, however, the situation is much more critical than is believed, no doubt is expressed that the prisoners would be delivered to the American Council for trial on his demand.

Relief in Six Hours.

Distressing Kidney and Bladder diseases relieved in six hours by the "New Great South American Kidney Cure." This new remedy is a great surprise on account of its exceedingly promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by F. Potts Green, Bellefonte, Pa. v26-5-1y

Was Not the Chicora.

Chicago, Feb. 4.—All hope has been abandoned that the object sighted off Chicago yesterday morning will prove to be the hull of the lost steamship Chicora. There was little interest shown in South Chicago during the day, and only a few persons braved the extremely cold weather to visit the lake shore. While further search was considered useless this morning, it was not desired to leave a possible doubt, and the tug Moreford was sent on a searching cruise. The boat went along the Indiana shore twelve miles into the lake, but was unable to find anything but ice. Many huge cakes were encountered which might easily be mistaken for a boat from the shore, and it was doubtless one of these which aroused so much hope and excitement.

A False Diagnosis.

La Grippe is confounded by many persons with a severe attack of catarrh, which in some respects resembles the former. These individuals suffer severely with pain about the forehead, eyes and ears, with soreness in throat and stoppage of the nasal passages, and in fact, are incapacitated for work of any kind for days at a time. These are catarrhal sufferers. Ely's Cream Balm has been used with the best results in such cases. The remedy will give instant relief.

Strychnine in the Butter.

Ligonier, Pa., Feb. 4.—To-day Samuel Clifford was arrested on a warrant sworn out by his father in-law, Thomas J. Hufty. Hufty charges Clifford with placing strychnine on butter, but fortunately it was discovered before any was eaten. Mr. Hufty came to this place from Braddock last fall and is said to be wealthy. Clifford is married to his only daughter, and for some time Clifford and Hufty have not been on good terms. They have been conducting a notion store here together. Clifford gave bail for a hearing.

We offer *American Gardening*, one year together with the choice of one of their Gardening "Clocks," sample of which can be seen at this office, in club with Republican for only $2.00 per year.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

UNITED HOSPITAL AND DISPENSARY, Boston, Mass.

The greatest stock of Rubbers in the county of the very best make and at correspondingly low prices.

One lot men's good, heavy winter shirts worth $1, now 49c.

The best unbleached muslin 4, 4½ and 5c.

The very best bleached Muslin 6½ and 7c.

Tickings from 7c up.

Ladies' Corsets from 18c up.

We have no space to detail our entire stock but the above will give an idea of what we propose to do for the next 30 days. You will remember that we have sold goods cheaper the past season than has ever been known before. Now we have made the above reduction even from that basis. We must move our winter stock, as we propose to have a great line of Spring goods in due season.

LYON & CO

BELLEFONTE, PA.

Kittanning Doomed.

Kittanning, Feb. 4.—Arthur Kirk, of Pittsburg, who superintended the dynamiting of the ice gorge for the Ford City Company, believes Kittanning will be swept away by the expected flood. He was here Sunday evening soliciting subscriptions to continue tunnel cutting to save this town. Citizens refused contributions. Mr. Kirk was disappointed and says Kittanning deserves its impending doom.

Explosions of dynamite on the gorge shattered windows and shook so many houses at Rapton and Manorville, that the Plate Company may be sued for damages. Blasts two miles away shook houses here yesterday.

—Itch on human, mange of horses, dogs and all stock, cured in 30 minutes by Woolford's Sanitary Lotion. This never fails. Sold by F. Potts Green, druggist, Bellefonte, Pa. v26-5-1y

Will Stay With the Rest.

Massillon, O., February 5.—After a stormy and protracted session the Massillon miners' district convention adjourned last night, having decided by a vote of 854 to 551 to remain in the United Mine Workers of America, and not to organize as an independent association. This is a vote of confidence in the present national organization, as it means that the Massillon miners remain in the fold for fighting purposes only. They propose to leave no stone unturned to defeat Pennsylvania and the whole McBride machine ticket. This they believe is practically accomplished. J. A. Crawford, of Illinois, is now a favorite for national president.

Black Rings

under the eyes and a sallow complexion show billiousness. This is one of the most disagreeable of stomach disorders and if allowed to have its own way will result in great harm. Cure billiousness at once by using Bipans Tabules, one tabule gives relief.

THE BIG STRIKE MEETING.

Twenty Thousand People Expected to Attend It To-day.

Brooklyn, Feb. 3.—It is expected that when the meeting of the Board of Aldermen takes place in the City hall to-morrow afternoon more than 20,000 persons will be standing on the piaza outside waiting to see what action the city fathers will take in regard to the petition and resolutions to be presented by the Executive committee of District Assembly No. 75. The petition was sent to all labor unions throughout the different parts of the city to-day. The petition asks that the franchises be taken away from the Brooklyn Heights Railroad company, the Atlantic Avenue Railroad company and the Queens County and Suburban Railroad company.

Police Commissioner Welles said he would have sufficient policemen at tomorrow's meeting to see that no violence occurred.

A number of desertions from the railroad companies were reported to-day. The same number of cars were run to-day that have been for the past few days. There was more rioting, but nothing serious. No bad collisions occurred.

Master Workman Connelly to-night gave this statement:

We notice a statement made to-day by President Norton that he proposes to claim the privilege, in defiance of the police department, to arm his imported scabs and Pinkerton men, and if this is done the citizens of Brooklyn will certainly exercise the same privilege and go armed in self-defense and as a protection against these lawless, imported thugs and their corporate criminals, who employ them in defiance of this city and State.

Mr. Connelly said that he had received so far 61,491 signatures by citizens of Brooklyn to the petition asking the board of aldermen to take the franchises away from the Brooklyn Heights, Atlantic avenue and the Queens county and Suburban railroads.

Two persons were injured in a trolley collision to-night at Nostrand avenue and Malbern street. They were Mrs. Curran and Mrs. Scott. Both were severely hurt.

There May Be Some Survivors.

Chicago, February 3.—At 10 o'clock this morning an object ten feet high and 250 feet long, resembling the hull of the illfated Chicora, was discovered off South Chicago, lying between two large ice floes. The hull was floating south and the life saving crew was dispatched to follow it along the Indiana shore. Tugs were also sent from Chicago. At 5.30 p. m., Agent Van Sickle, of the Baltumore and Ohio rail road at Whitting, Ind., saw the hull float by, two miles from shore. Besides the hull was a raft on which fifteen or twenty men could be seen. It is believed that the reason they have not returned or reported is that they are at work, and have succeeded in getting a boat through the ice.

The relief train sent out over the Baltimore and Ohio returned to South Chicago. They located the wreck about two miles off Whitting, Ind., where it has been stationary since 4 p. m. Owing to the darkness it is impossible to make any attempt to reach the wreck from shore, but two boats which had come from Chicago, probably Calumet and steamer Ludington, were fighting their way through the ice from the outside towards the wreck. If they succeed in reaching it to-night and rescuing any survivors they will probably return to Chicago, as all other harbors are closed with ice.

The Iron Outlook.

Harrisburg, Pa., February 3.—Although the last week of January was a fairly busy one, the month was unsatisfactory to iron and steel manufacturers in this vicinity. February prospects showed an improvement within the week and everybody is looking for an increase of demand this month. It is probable that March will see an improved situation. Several Harrisburg plants have ordered supplies of pig iron from Virginia furnaces for 1895 at prices considerably below those of Pennsylvania producers, but they are not heavily supplied with work. Every plant in the lower end, except the Cheaspeake nail works, which have been in operation only a few days in seven weeks, was in operation last week.

The week was a busy one in the railmaking branches of the Pennsylvania steel works. Over $50,000 was paid out to employes for work done January 1-15, against $23,000 for the same period last year. The furnace blown in, No. 2 made its first cast on Friday, and is expected to make 250 tons a day. Two other furnaces were taken off last week for repairs and on account of temporary dullness, leaving but three in operation.

Two Bold Outlaws.

Harrisburg, February 3.—Two burglars who robbed a clothing store in Carlisle, eighteen miles from here, Friday night, were sighted early Saturday morning on the Susquehanna bridge by four Harrisburg policemen. As the officers advanced the robbers threw a valise full of burglars' tools, into the river, and both, with a big revolver in each hand, opened fire. After a lively fusilade the policemen were driven into a farm house on the Cumberland county shore.

The burglars then held up the driver of a two-horse team and compelled him to take them to the little town of Camp Hill. There they stole two horses and then boldly rode into Harrisburg, hitched the horses on the main street and went two miles to the outskirts of the city, followed by almost the entire police force, and a big posse of citizens.

Although surrounded by men and boys with shotguns and revolvers, they kept up a lively fire for fully half an hour, killing a horse driven by one of the policemen. They were finally captured and are now in jail here. They gave their names as John Love and Charles Johnson, and are supposed to be western desperadoes.

Lovers Frozen to Death.

Muskegon, Mich., February 3.—Mrs. A. G. Ward, mother of the Macabees, returned from the north last night and relates a tragic story of the finding of a pair of young lovers in a snow drift, frozen to death. They were locked in each other's arms and appeared to be asleep. A farmer in Benona was awakened early in the morning by a noise about the house. He found a horse just outside hitched to a part of a cutter. This caused a search to be made with the above result. The man was identified as a teacher of the Marshallville school, and the woman, though unknown, was supposed to be his sweetheart who had come to visit him.

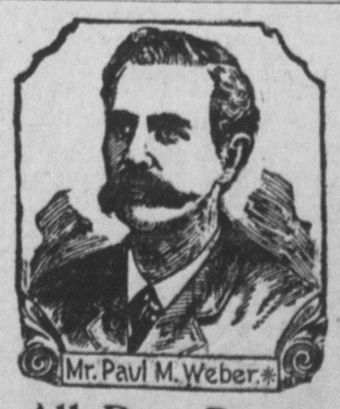
Eight Men Frozen To Death.

Duluth, Feb. 3.—It is reported that eight men have perished in the unexplored gold regions along the Seine river. They are William Mackey, John Carter, Thomas Barlowe, Charles McGuire, William Morton, A. McGuire, Thomas Purcell, William Barrow.

The party left Rainy Lake City and headed up the Seine river where camps are few. The thermometer dropped to 40 degrees below zero and one by one the prospectors dropped behind and perished in the snow. There are more than 200 prospectors in this region and it is believed that there will be more reports of deaths from the cold.

Made a Lady Colonel.

Charleston, W. Va., Feb. 3.—Quite a little breeze has been stirring around the executive quarters at the capitol, and it is stated that there is a very great estrangement between Gov. MacCorkle and his private secretary, Mr. John B. White, as a result of which Mr. White is in Washington now and may not return to resume his duties at all. It is alleged that it all came about through the appointment of a Miss Humphreys of Cincinnati as a colonel by the governor, in which affair it is claimed that White exceeded his authority. It is very difficult to obtain the exact facts, but the affair is furnishing food for a great deal of gossip.



All Run Down
Always Tired, Sleepless and Without Appetite
Blood Vitalized and Strength Renewed by Hood's Sarsaparilla.
"C. I. Hood & Co., Lowell, Mass.:
"For a couple of years, I was subject to feelings anything but good. I always felt tired, I could not sleep at night and the little I could eat did not seem to benefit me any.
I Did Not Have Any Ambition
to go around or work and in fact was not able to do a good day's work. I happened to pick up a circular embracing advertisements and testimonials for Hood's Sarsaparilla, and after reading them decided to give Hood's Sarsaparilla a trial. I have taken five bottles and must say that I have derived wonderful benefit from it and
Feel Like a New Man.
I would recommend it to all sufferers and would urge them not to hesitate but to decide at once to take Hood's Sarsaparilla." PAUL M. WEBER, 1112 North Tenth Street, Reading, Pennsylvania.
Hood's Sarsaparilla Cures
Hood's Pills are prompt and efficient, yet easy in action. Sold by all druggists. 25c.

AMERICAN BOOK COMPANY.

Their Prices are Uniform in All Districts of the State.

The American Book Company has published a full and exhaustive reply to recent newspaper attacks attempting to show that they had charged different prices for their books in different parts of Pennsylvania. They deny the charge and challenge any school board which deals with them to cite an instance which shows any such discrimination. They explain that the obvious reason why some districts have paid out more money for school books than others under the Free Text-Book Law was because some districts bought a partial supply, utilizing the books owned by the pupils, while others changed the books in use and bought a complete supply of new books.

They prove by their printed contracts and prices that the same offers were made and accepted in all parts of the State, and by all districts which purchased books of them; that their prices have been not only uniform but as low or lower than those of any other publishers.

Taking up the specific instances cited in the newspaper attacks, they show that where different prices actually prevail in different places, the books are not their publications, or, that prices were misquoted; and in some instances, the comparison was unfair in that the prices named were not for the same text books, but that all cases where the same books were sold by the American Book Company, they were sold at the same identical prices.

The Company also call attention to the legislative investigation of 1890 as to the existence of a so-called School Book "Trust," and that the result of this investigation, as expressed in the report, adopted by the Pennsylvania Legislature, demonstrated that the American Book Company was not and is not a "Trust," but a legally constituted business concern whose definite plans and purposes are to furnish the best school books at lower prices than had hitherto prevailed. It appears that they have accomplished this purpose and that their prices are materially lower than were formerly customary, and are as low or lower than those of any other of their competitors.

Deafness Cannot be Cured
By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Grief Maddened Him.

Franklin, Pa., Feb. 4.—The funeral services of Mrs. John Bell, who died Saturday, was held in the Third ward chapel here this afternoon. After the services and when the pallbearers were about to take the casket from the church the husband of the dead woman created a sensation by drawing a razor and endeavoring to cut his throat. In a moment there was the wildest confusion, several ladies fainted, while others ran from the church. Mr. Bell was quickly overpowered and removed before he had succeeded in inflicting any serious injuries. He is temporarily insane, caused by grief at the loss of his wife.

What Hard Water Does.
The hard water necessarily in common use for drinking purposes in many places tends to cause the deposite of calcareous matter in the Kidneys and Bladder, producing the agonizing and dangerous diseases known as Gravel and Stone. Formerly the only relief from these affections was by painful surgical operations, and even they were of questionable value. Now the work of removal of these foreign substances from the delicate organs they clog irritate and torture, is safely, speedily and painlessly done by Dr. David Kennedy's Favorite Remedy. No other medicine can be relied upon so implicitly. In every case of Kidney Disease it should be resorted to at once.

NEW DISCOVERY.
Among the many discoveries of the present age, none rank higher than the new metal silvereen, which owing to its great durability and cheapness is bound to take the place of silver in the manufacture of fine tableware.

Silvereen is a beautiful white metal, will not tarnish or rust, and all goods made from it are warranted.

We want every one to have a chance to compare silvereen with silver, so for the next sixty days we are going to give away one half dozen Crown Silver Tea Spoons *Free*, to every person who will send for one of our Terry's Silvereen sets, containing six Tea Spoons, one Sugar Shell, one Butter Knife. If at any time the Silvereen goods do not prove satisfactory, return them and your money will be refunded. Remember we give you the Silver Spoons.
Price of Silvereen set, $2.00. f 7-2y

St. Jacobs Oil is made to cure
RHEUMATISM

Frigid in Northwest.

St. Paul, Feb. 3.—The temperature today ranged from 10 to 26 degrees below zero. Indications point to 30 below by daylight to-morrow.

Reports from the north indicate a slight moderation since yesterday. St. Vincent, Minn., to-night reports 24 below; Winnipeg the same, and Battleford, N. W. T., 26 below. The Montana report indicates that a Pacific chinook is coming in this direction. At 8 p. m. it was 38 above at Helena. Considerable suffering among stock is reported in South Dakota and Montana.

Killed A Doctor.

Detroit, Feb. 3.—Dr. Horace E. Pope, a dentist with an office and residence on Michigan avenue, was killed yesterday morning by William Brusseau, Mrs. Pope's nurse. Brusseau says he found Dr. Pope sitting on his wife's bed holding a cloth saturated with chloroform over her mouth. When Brusseau entered the room the doctor fired at him, but missed. The nurse seized a hatchet and buried it into the skull of the man. Pope had been insured for $9,000, and but a few days ago transferred the payment of the policies from his estate to his wife.

Valued Endorsement.
Schaghticoke, N. Y.—It is ignorance rather than anything else that makes life miserable, but ignorance of the value of Dr. David Kennedy's Favorite Remedy does not exist in Schagticoke to-day, as a blood medicine and nerve tonic it stands supreme. One of the principal reasons for its popularity comes from the great benefit our fellow townsman, Andrew Sipperley derived from its use. Mr. Sipperley has suffered for years past, with a chronic kidney trouble, frequent bilious attacks, and, at intervals with violent neuralgia in the head and face. Up to last fall he rarely knew a well day. At that time his wife who had learned of the good Dr. David Kennedy's Favorite Remedy had accomplished, determined to have him use it. In writing about his sickness, Mr. Sipperley said:

"For several years I was subject to attacks of kidney trouble and gravel, which was attended with most exerciating pain, but since I began the use of Dr. David Kennedy's Favorite Remedy Ihave had no serious trouble, and my general health is greatly improved. I know of a great many people about here who have used Favorite Remedy, and in every instance benefit has followed. One of the officers of the Albany, N. Y. Hospital recently said, in speaking of Favorite Remedy: "I know of its great medical value, and to my knowledge it cures the diseases for which it is prepared.

The great value of Dr. David Kennedy's Favorite Remedy lies in the fact that it disolves the uric acid in the blood. Such ailments as rheumatism, neuralgia, nervousness, dyspepsia, kidney, liver and urinary troubles, and the sickness peculiar to women all come from this one cause. Favorite Remedy disolves this acid and expels it from the system, thus curing the disease. In cases of scrofula, diabetes and Bright's disease, it has cured where other treatments have failed.

"Switch Annie" a Bride.

Milwaukee, February 3.—Annie P. Granetner, better known in railroad circles as "Switch Annie," is a bride. She was married on January 25 to Charles F Green, a yard foreman in the employ of the Chicago, Milwaukee and St. Paul.

"Switch Annie" is one of the most unique characters in the west. For years she enjoyed the reputation of being the only regularly employed woman switch tender in the country. She was in service of the St. Paul road for about fifteen years and had charge of a set of the most complicated switches on the system, but never had an accident happen near her post of duty.

She became a switch thrower by fate, succeeding to the position of her father who was killed near the switches she tended. When a child she assisted her father at work, and being left without means of support by his death, she applied to the St. Paul company for work and she was placed in charge of the switches. She is now about 32 years of age.

—Renovo had a sixty thousand dollar incendiary fire on Saturday night.

DR. KILMER'S

DR. KILMER & Co., BINGHAMTON, N. Y.

The Lie Quickly Nailed.

Philadelphia, Feb. 4.—Ex-Gov. Pattison's boomers got a rude shock to-day. A leading Democrat late Saturday night announced that a local trust company which is on Senator Porter's bond for $500,000, on a reservoir contract had withdrawn the surety. This was intended as a proof that Porter's contract has been unfilled and thus to throw discredit upon the Republican ticket, especially on Mayorality Candidate Warwick. To-day, however, the president of the trust company notified Mayor Stuart that this Democratic yarn had no truth in it whatever. Bets are being made that Warwick will defeat Pattison by 40,000 majority.

A Kansas Tragedy.

Atchinson, Feb, 5.—James Nutt, a prominent farmer near here, shot and fatally injured Mrs. Frank Poyten and a stranger who were in a buggy this morning. The cause of the tragedy is not known. A few years ago Nutt killed W. W. Dukes, a member of the Pennsylvania Legislature, in Uniontown. Dukes had killed Nutt's father, Nutt was arrested and is in jail.

—Cold as it was on Tuesday evening several sledding parties passed through Bellefonte.

The Universal Medicine Company.

The following remedies for the diseases indicated are all of well known Standard and have been in use, by the leading specialists of the world for many years. They are all of tried value and their use will give great satisfaction. Their action is gentle, yet forceful, producing the best results. You have thus the advantage of the remedies which are used by the most eminent practioners, at a very small cost.

These remedies have given universal satisfaction.

List of Numbers. Cures.	Price.

The Golden Star
Gold Mining Company
OF MONTANA.

Capital $300,000 divided into 300,000 shares of $1 par value each.

Non-assessable forever.

This company owns two gold mines located in a county which produced $40,000,000 in gold in six years. Has 45 acres of virgin land. Has 500 feet of underground work in shape of shafts and tunnels. Has ore in sight worth $100 per ton. Has assays from $25 to $1,500 per ton. Has shipped ore netting $36 per ton. Has such a small capitalization, only 300,000 shares and not 2,000,000 shares as other companies.

The company intends to sink a shaft through this rich $100 ore vein to a depth of several hundred feet, in order to be able to produce largely for the benefit of the stockholders which will get this profit in large monthly dividends. Hence the company offers a small amount of its stock at the extremely low price of 40 cents a share.

These shares are the investment on the financial market to-day and are better than Government Bonds as they will pay bigger interest.

Write at once for reports and other literature. Address,

The Golden Star Gold Mining Company.

STILL SAWING WOOD.

The Financial Condition as Viewed at the National Capital.

Washington, D. C., January 31.—The financial situation here is far from being what the friends of the country desire. The energy and activity displayed immediately after the receipt of the president's message seem to have been but a flurry, and the republicans are slow to commit themselves to the proposition that an increase of revenue is not needed and that the currency question alone requires attention. While the republicans of the banking committee have taken a very active part in amending and reporting the administration financial bill, and there is a very strong sentiment among the republicans in favor of adopting it, the opposition of the leaders to any action on their part which would seem to give color to the contentions of Mr. Cleveland and Mr. Wilson that revenue is not wanted, will probably keep them from taking too active a part in the house. The disposition among the republicans to act solidly together in support of the proposition is not as strong today as it has been. There are many who hold that regardless of what Mr. Cleveland's motive may be as regards committing them to a definite proposition they should regard nothing but the proposition itself, and if it meets their approval do their best to secure action upon it. Without republican support the measure must fail.

There is a fear on the part of the advocates of the Pacific railroads funding bill that the vote in the house will be adverse to the measure. The vote by which the special order was adopted shows but a very narrow margin in favor of consideration, and it is believed that quite a number of members who voted for the order will vote against the bill. Even if the house should pass the measure it is improbable that the senate will take it up for consideration.

Among the minor matters, Mr. Hicks was appointed by Chairman Bankhead, of the committee on public buildings and grounds, as one of a committee of three to act with the committee on acoustics and ventilation in investigating the present method of ventilation of the house of representatives, of which there has been so much complaint, and also to investigate the work and proposed improvements by Architect Clark in relation to the same.

Three Were Burned to Death.

Philadelphia, Jan. 31.—Three lives were lost this morning by a fire that was caused by the upsetting of a lamp by a cat. The victims are Mrs. Christiana Singlinger and her 1-year-old twins. The family of Conrad Singlinger were asleep in their home shortly after 1 o'clock this morning, when the household cat jumped upon a table and knocked over a burning lamp. The blazing oil ran all over the room, and the interior of the dwelling was soon ablaze.

Singlinger's family consisted of himself and wife and six children, and when the parents and four of the children had escaped to the street in their night clothes, the mother suddenly discovered that her twins had been left in the burning house. Although efforts were made to restrain her, she rushed into the flames and succeeded in reaching an upper room, where the babes were. This was the last seen of the woman, and when firemen fought their way to the upper floor, they found the mother and babes suffocated.

Fixed the Responsibility.

Butte, Mont., January 31.—The coroner's investigation into the powder explosion by which fifty-eight persons were killed was concluded this evening. The verdict fixes the responsibility on the Kenyon-Connell Hardware company and the Butte Hardware company, in whose warehouses the explosion occurred. The members of the companies are charged with criminal negligence in storing large quantities of powder within the city limits, contrary to law. The verdict and the testimony will now be submitted to the grand jury and a criminal proceeding will probably follow.

Will Vote for Postmaster.

Bedford, Pa., January 31.—Saturday, February 9, has been set for the time of an election for postmaster by the popular vote of the citizens of this town. The contest is on in dead earnest and promises to be interesting. Twelve candidates have already announced themselves as such. Yet in the face of all this the officer will likely be appointed by the powers that be, and in such an instance competition lays between Captain S. S. Metzger, supported by Hon. J. M. Reynolds, and George A. Rush, ex-postmaster, having behind him Hon. H. D. Tate and consequently the Harrity influence. The present incumbent B. F. Mann, retires from office April 1, 1895.

A Reign of Terror.

St. Louis, Jan. 31.—A special from the City of Mexico says that since the great earthquake shock of the 23rd of November, 1894, which caused the loss of fifteen lives in that city and destroyed thousands of dollars worth of property, a reign of terror prevails in the towns of Jamailtepec and Tuxtepec, in the state of Oaxaca where the earth trembled from six to eight times a day. The churches and houses are a heap of ruins and the inhabitants have nearly all fled to neighboring hamlets. The eruption of some volcano presumed to exist in subterranean form close by, is momentarily expected.

Tuesday night between 8:45 and 9 o'clock earthquake shocks were felt in many places in the State of Oaxaca. The time of duration was three seconds.

COLLEGE BOYS BANQUET.

Fifty Members of the Class of '98 Enjoy Themselves at the Bush House.

"Hilo, Kilo, Penna State,
Vive la, vive la, '98."

Such was the College yell that greeted Bellefonters on Friday evening as sled load after sled load of students from the State College arrived in Bellefonte until the number summed up a total of half a hundred. They were members of the Freshman ('98) class and were here for the purpose of holding their annual banquet at the Bush House, and they held it. In years gone by the boys went to Lock Haven to hold their annual "love feast" but the past year they have been held at the Bush House because they can get service here equal to any in the State.

And Friday evening was no exception to the rule. The large dining room was a perfect bower of beauty. The long table with its shimmering silver, cut glass and china; its pyramids of fruit and confectionery; its decorations in green, potted plants and cut flowers, formed a most admirable and appetizing board around which the merry youths assembled. And, equal with the lavish display on the tables, were the decorations of the room, which were made to correspond with the class colors; and this, in addition to the extensive display of green wreathing, ferns, plants, etc. completed the arrangement of one of the nicest banquet rooms ever seen in Bellefonte. And Mine Host Daggett, and Chief Clerk Harry Fenlon, who superintended the decoratings are deserving of flattering compliments for their taste to plan and skill to execute. And while they succeeded so admirably with the outward display, the provision for the inner man was even more elaborate.

It was just about ten o'clock when the boys were summoned from parlors, smoking room and office to the banquet hall and were soon seated around the table, Roy McDonald, as Toastmaster occupying the head, and seated near by were Leaton T. Bechtel, Samuel Walker, Jr., Harwood C. Painter and James H. M. Andrews, the committee of arrangements. The menu cards were simply exquisite, representing the very best that the printer's art could execute. The menu served was as follows.

MENU.

Blue Points en Conquille.
Green Turtle a L'Anglaise.
Broiled Spanish Mackerel a la Maitre D'Hotel Sauce.
Boulettes. Celery Salad.
Apollinaris.
Turkey. English Stuffing, Cranberry Sauce
Potato Chips. French Peas.
Punch Cardinal.
Haricot of Venison,
Chicken Cutlet au Cresson.
Lettuce. Orange Salad.
Fancy Ices. Assorted Cakes.
English Dairy. Edam Cheese.
Coffee.
Cigars Cigarettes.

It is safe to say that never was a meal enjoyed more than this one. Everything done just right and served in the highest style of epicurean taste. Following the coffee and when the young men were all helped to cigars and cigarettes toastmaster McDonald arose and made a brief speech after which the following toasts were proposed and responded to in regular order:

"Class of '98," Arthur Llewellyn Bailey.
"The history of our class is yet to be,
And what it is, all must see."
"Our girls," Leon Evan Thomas.
"And when a lady is in the case,
You know all the other things give place."
"Chappie," John Patterson Taylor.
"When wafted on by fortune's breeze,
In endless peace, thou seemest to glide,
Prepare betimes for rougher seas
And check the boast of foolish pride."
"The Faculty," Clay Sprecher.
"Nothing doth our Faculty lack
When "Papa" once gets on the track."
"Sophites," Charles Arthur McElwain.
"Heaven, we'll be there,
Ninety-seven ('97) Where?"
"Our Future," James Wallace White.
"Let come what may from "Soph" or "Prof"
It matters not, We're off, we're off."

It was quite late at night, or rather early this morning when the young men wound up their merry-making with a vote of thanks to the kind Host and a yell for the class and College, and the teams, soon in waiting, departed on their trip to the College.

The Governor's Staff.

Harrisburg, Pa., January 31.—The following appointments of Governor Hastings in his capacity as commander-in-chief of the National Guard of Pennsylvania are announced by the adjutant General: First Lieutenant William Fisk Reeder, Fifth regiment, to be assistant adjutant general; Colonel Edward Morrell, third regiment, to be inspector general; Major Albert J. Logan, quartermaster Second brigade, to be quartermaster general; Henry H. Kuhn Johnstown; Henry Hall, Pittsburg, Chas. H. Howell, Philadelphia; James Elverson, jr., Philadelphia, and Millard Hunsicker, Pittsburg, to be aides-de camp with rank of lieutenant colonel.

Mail Lost on the Elbe.

Washington, Jan. 31.—Captain Brooks, Superintendent of the foreign mail service, to-day received a cablegram from the Director General of the German Postoffic Department, stating that 220 sacks of mail matter destined for the United States was lost by the sinking of the Elbe, and that nothing had been heard of the missing mail clerks.

Interesting State Notes.

The water commissioners of Lebanon city are condemned for making unjust discriminations in the rent of certain consumers.

Shippensburg schools, which had been closed for some time because of the prevalence of measles, were opened again on Monday.

The young Republicans of York were entertained at a feast Saturday night.

Susquehanna river ice in large quantities is being shipped from Wrightsville.

The Allentown Chronicle declares that "a great many hold theories who can hold their tongues."

St. Luke's Evangelical Lutheran church of East Sunbury will be dedicated on the 17th of February.

In Northampton county the jurymen A Columbia county farmer has succeeded-474 Republicans.

The Young Women's Christian associations in the state now rival that of the Young Men's in the earnestness and success of their work.

The deputy revenue collecter of Luzerne county, estimates that there are 1,000 men in Wilkesbarre who will have to pay income tax.

A mad dog made its appearance in Sunbury last Friday and bit a number of other curs before it was killed. All the dogs bitten were shot.

The brewers of the state are organizing actively and are urging a repeal of much of the heavy taxes imposed upon them at present.

Complaint continues to be made that funerals are extravagantly costly and that too for people whose friends and relatives cannot afford the expense.

Jacob K. Boyer, a Danville sewing machine agent, shot himself Friday and died in three hours. Business embarrassment is given as the cause for the rash act.

The wheat fields of eastern Pennsylvania are reported to be in most favorable condition this year, because they are covered in most cases with snow from one foot to three feet deep.

The Master Painters' and Decorators' association of Pennsylvania is now in better organization than it ever was in its history, with branch organizations in almost every town and city in the state.

The best people in Lancaster city are anxious to have the debt which it owes Lancaster county paid as soon as the money can be raised, and it is proposed to borrow the amount and wipe out the indebtedness.

Mayors in some of the western cities of the state say that boards of health are assuming authority which largely belongs to them and their policemen, which is the cause of considerable and unpleasant conflicts of authority.

Efforts to increase the width of county bridges over streams to the eastern part of the state are attracting much attention. Travel on township roads has become so large that the improvements are needed for the safety of human life.

Always There.

The familiar face of Michael Grove is invariably to be seen at Lemont station on the arrival of each train. He is a retired, hardfisted tiller of the soil, and delights to be at the station when trains arrive and scan each car window for the faces of acquaintances and greet each one with a nod Long live our old friend Mike to keep up nodding.

A MOTHER'S DUTY

TOWARDS HER DAUGHTERS.

Suggestions Which May Help to Avoid Many Dangers.

[SPECIAL TO OUR LADY READERS.]

Less than twenty years ago even the medical profession scouted the idea that young girls could suffer from the misery of uterus troubles.

That form of disease, it was claimed, was only to be cured women. When Lydia E. Pinkham first sent out the news of her great discovery, there was no lack of harsh speech from those whose practice and opinions she set at defiance.

But when young girls by the hundreds were absolutely cured by *Lydia E. Pinkham's* Vegetable Compound, then the tongues of the traducers were stilled, and faith was allowed to live in the hearts of the people.

Young girls are subject to this trouble. It robs them of the buoyancy of youth. It makes all effort distasteful.

It causes retention and suppression of menses, leucorrhœa, severe headache, waxy complexion, depression, weakness, loss of appetite and interest.

This being the condition of your daughter, what is your duty, loving mother?

Certainly you ought to know that these are all symptoms of the one cause of nearly all the suffering that comes to women; and to save your daughter you ought to begin that treatment at once, which for 20 years proved its power throughout the world.

Lydia E. Pinkham's Vegetable Compound is the surest and most natural remedy for women ever compounded. It will accomplish its work with certainty.

Finders are Keepers.

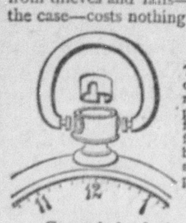
The law of finding is not generally understood, says an exchange, but it was decided many years ago, and it is well to know the case and the decision. A visitor to a store found a wallet containing a sum of money. He handed the wallet and its contents to the merchant. The latter refused to deliver them on the ground that they were found on his premises. He then sued the shopkeeper. It was decided that against all the world but the owner, the title of the finder is perfect. The receiver of an article found is only a trustee, first of the owner, then of the finder, if the owner does not appear. The receiver has no right to keep an article against a finder, any more than the finder has to keep against the owner.

—The colored rioters were sentenced this morning three of them to a term of one year and four months in the penitentiary; one to a year and two months in the penitentiary and one to four months in jail.

Here's the Idea

Of the Non-pull-out Bow

The great watch saver. Saves the watch from thieves and falls—cannot be pulled off the case—costs nothing extra.



The bow has a groove on each end. A collar runs down inside the pendant (stem) and fits into the grooves, firmly locking the bow to the pendant, so that it cannot be pulled or twisted off.

Can only be had with cases stamped with this trade mark.

Jas. Boss Filled Watch Cases are now fitted with this great bow (ring). They look and wear like solid gold cases. Cost only about half as much, and are guaranteed for twenty years. Sold only through watch dealers. Remember the name

Non-pull-out

Keystone Watch Case Co.,
PHILADELPHIA.

A superb mammoth tintograph in 12 colors by the distinguished artist, Maud Humphrey. It is 2 feet long and 14 inches wide, and will be sent free if you tell your friends. It is called "Our Venus," and shows a beautiful, dimpled darling clad in a warm, rich, fur-lined cloak, basket and umbrella in hand; she pulls the snow covered latch, while her golden hair shimmers in the sunshine, her cheeks blush with health and vigor and her roguish eyes sparkle merrily. **Sure to delight you.** A copy will be sent, free, postpaid, if you promise to tell your friends and send 14 cents in stamps or silver for a three months' trial subscription to

Children Cry for Pitcher's Castoria.

—The new Brockerhoff building, "Temple Court," will be completed and ready for occupancy in the next few days.

—Dr. E. S. Dorworth and family are moving from their old residence opposite the court house to their new home on East High street.

—The House committee on agriculture were very much pleased with what they saw at State College during their visit there on Friday. This augurs well for the desired appropriation.

Mr. Moses Montgomery is confined to his room in the Brockerhoff House with a badly sprained limb, the result of a severe fall on the icy pavement.

—Evidently there is something wrong with the gas mains in Bellefonte, if one can judge from the condition of the lights in the postoffice Thursday night.

—It is rumored that Col. J. L. Spangler, of Bellefonte, would be appointed by Gov. Hastings as Quartermaster General of the National Guards, of Pennsylvania. Col. Spangler claims that the rumor was entirely unfounded from the fact that he never thought of aspiring to higher military honors. Albert J. Logan, of Pittsburg, has now the honor of claiming that title.

—Mr. S. D. Tobias, a brother of ex-county Recorder Wm. A. Tobias, died at the home of his brother in Millheim, on Wednesday evening, after an illness of nearly thirty years, deceased was 54 years old and was a druggist by profession. About fourteen years ago he was a clerk in Shugert's drug store in this place, but had to give up the work on account of his health. Funeral services will be held to-morrow morning at Millheim.

—Rev. S. H. McDonald died at his home in Lewistown, Pa., on the 18th inst, aged about 85 years. Deceased was licensed to preach by the Presbytery of New Brunswick, New Jersey, in 1834, and ordained by the same in the following year. He formerly preached at Millerstown, Pa. where he married Mrs. Beaver, mother of Gen. James A. Beaver of Bellefonte, and Mrs. Rev. J. W. White, of Milroy. He also preached in West Kishacoquillas Seminary. He was the oldest minister in Huntingdon Presbytery.

A GREAT disaster like the wreck of the steamship Elbe stirs the imagination and awakens sympathy for the drowned passengers and crew and for their relatives and friends who read the news that, in the twinkling of an eye, loved ones have found a grave in the sea; but it also leads to the reflection that there is very seldom such news to record. Voyages by sea have been rendered remarkably safe within recent years. Scores upon scores of steamships cross the Atlantic weekly, yet there is seldom an accident or loss of life. It is true that in a period of fifty years nearly one hundred steamships have been lost, but this is a very small proportion when voyages, not ships, are considered. Statisticians have figured up a loss of less that 6000 lives by shipwreck in the Atlantic service in fifty years, and, though that number is great, it is relatively small, for as many are sometimes carried safely into New York in a single day. The loss of life is made impressive chiefly because it is concentrated, a single shipwreck carrying down hundreds of men and women, and, though the dangers attending sea voyages ought to be recognized, the relative immunity of voyages from danger should not be forgotten.

We have in this State an "Arbor" day—even two of them—which is very well. We have "Labor" day, "Memorial" day, and a half dozen others devoted to special purposes, in which it is desirous to have common action by all interested. To create a special "Sanitary" day, as is proposed by the bill introduced by Representative Reinoehl, seems like crowding the mourners somewhat—overdoing the special day business. It is well to have the public schools children interested in sanitary science and a good deal more than one half day each year could be devoted profitably to this object, We do not believe that the purpose sought will be very greatly served by adding a half day to the school holidays with the expectation that the Superintendent of Public Instruction, in co-operation with the State Board of Health and Vital Statistics, will improve the opportunity to arouse public interest in the value of sanitary science.

Terry's Silvereen.

Among the many discoveries of the present age, none rank higher than the new metal silvereen, which owing to its great durability and cheapness is bound to take the place of silver in the manufacture of fine tableware.

Silvereen is a beautiful white metal, will not tarnish or rust, and all goods made from it are warranted.

We want every one to have a chance to compare silvereen with silver, so for the next sixty days we are going to give away one half dozen Silver Tea Spoons *Free*, to every person who will send for one of our Silvereen sets, containing six Tea Spoons, one Sugar Shell, one Butter Knife. If at any time the Silvereen goods do not prove satisfactory, return them and your money will be refunded. Remember we give you the Silver Spoons. Send at once as this offer is for 60 days only.

Price of Silvereen set $2.00.

ACCIDENTALLY KILLED.

Scott Beckwith Meets With A Sudden Death.

On Thursday Scott Beckwith, who lives at the foot of the mountain on the road from Port Matilda to Philipsburg, was loading his gun preparatory to going out hunting. In some way the weapon was accidentally discharged the ball entering his jaw and going up through the brain. Mr. Beckwith lived but an hour and a half, but was unconscious all the time. He was aged about 21 years and had been married only since last fall. The accident occurred in the house and was witnessed by only a ten-year-old girl. Beckwith was a laboring man and leaves his young wife and an aged mother to mourn his death. His father died two years ago. An inquest was held and the jury returned the following verdict.

Centre County SS:

Jury of Inquest taken in the township of Worth, Centre Co., on the 31st day of January, 1895, before Justice Thomas Weston, the following named citizens were summoned to inquire on the part of the Commonwealth when, where and how, and in what manner Scott Beckwith came to his death: S. R. Pringle, S. S. Miles, McClelland Williams, Harry Laird, E. R. Jones and John Daughenbaugh, jurors summoned as aforesaid, being duly affirmed, do make the following report:

That the said Scott Beckwith, on the 31st day of January, 1895, and in the county aforesaid, came to his death by accidental discharge of a gun in his own hands and in his own house.

In witness whereof the aforesaid Justice and the aforesaid jurors have to this inquisition put their seals on the day and year first above mentioned.

THOMAS WESTON, Justice of Peace.
S. R. PRINGLE,
S. S. MILES,
MCCLELLAND WILLIAMS,
HARRY LAIRD,
E. R. JONES.
JOHN DAUGHENBAUGH,
Jurors.

A Beautiful Tribute.

The sad messenger, death, has again invaded one of our homes, this time it has called from the embrace of loving parents, the form of our dear little Millard Kane, a very sweet and lovable child; not only was he dear to his parents, but all who knew him loved him. His sweet disposition and cheerful countenance endeared him to all. Not quite 3 years old, he had already acquired a great love for God and his house, he dearly loved the Sabbath school, of which he attended every Sabbath, and was always eager to go to church when he heard the ringing of the bells. He was a great sufferer for many weeks, but so sweetly patient was he that it was a wonder to those who beheld it; often during his severe illness when he heard the ringing of the church bells would he say, "Papa take me to church;" the Lord whom he loved has taken him to a better home and clime. What a pang of anguish his death has caused none but the parents can know, but submissively they bow to the will of the All Father, "who doeth all things well."

No bitter tears for thee be shed,
Blossom of being! seen and gone!
With flowers alone we strew thy bed,
O blest departed one!
Whose all of life, a rosy ray,
Blushed into dawn, and passed away.
Yes! thou art fled, ere guilt had power,
To stain thy cherub-soul and form,
Closed is the soft ephemeral flower
That never felt a storm!
The sunbeam's smile, the Zephyr's breath
All that it knew from birth to death.
Thou wert so like a form of light,
That heaven benignly called thee hence
Ere yet the world could breathe one blight
O'er thy sweet innocence.
And thou, that brighter home to bless,
Art passed, with all thy loveliness,

A FRIEND.

Coal at $1 per Load.

Many farmers in the vicinity of Bellefontes have been taking advantage of the good sledding and drive to Snow Shoe, a distance of 16 to 18 miles, for coal, paying a dollar at the mines for as much as they wish to load on a two horse sled, some taking as much as one and a half tons of soft coal for a load. This coal purchased at home would cost them no less than $3. Farmers having no work now and their teams being idle too can thus clear $2 per trip on their fuel. The team is no extra expense as the feed they would require while idle in the stable is taken along as also the teamster's dinner, the trip being made in a day.

—Coasting seems to have lost some of its attraction in Bellefonte, Why is this? There would be no danger if all persons taking part in the sport would exercise the greatest care.

Warning to Expectant ... Mothers.

Many internal remedies are being skillfully and glibly advertised, professing to **Shorten Labor, Lessen Pains of Childbirth, etc.,** and with wonderful inconsistency to regulate menstruation. Common sense should teach any woman that a preparation adapted for

MENSTRUAL DISORDERS

will not prepare the system for Childbirth; on the contrary, INTERNAL REMEDIES at this time may imperil her life. We earnestly say BEWARE of all such; they cannot, at this critical period, do any possible good, and their use may prove fatal. It is only by persistent EXTERNAL treatment while enciente, thus relaxing and softening all the parts, that the hour of Child-birth is robbed of its terror; and no remedy on earth does this but

... "MOTHER'S FRIEND."

For further information address

THE BRADFIELD REGULATOR COMPANY, ATLANTA, GA.

For the Relief of Firemen.

The executive and law committee of the State Firemen's association has unanimously decided to issue circulars to every fire company in the state, together with a copy of the bill now before the legislature, which provides that on and after January 1, 1896, there shall be annually paid by the state treasurer to regularly incorporated firemen's relief associations in the several cities and boroughs one half of the two per centum tax paid by foreign insurance companies, the amount to be paid to each regularly incorporated firemen's relief association to be based upon the return from the city or borough where such firemen's relief association exists as shown by the insurance commissioner's report. The bill further provides that such firemen's relief association shall have been specifically organized for the relief of firemen now in active service, who shall become disabled or worn out by reason of a long service in the performance of their duties, and for the relief of the families of firemen killed in the service.

Members of fire companies over the state will be asked to see their representatives in the legislature and ask them to give the bill their support.

Death of Jessie Hanes.

We copy the following from the *Hornet* by request:

Died in Howard township Sunday, January 13th 1895, after very severe suffering. Jesse Hanes, aged 72 years 11 months and 15 days. Deceased was born in Centre county Pa. February 1st 1822 having resided most of his life in Howard township where he died at the residence of his daughter Mrs. Poorman. He was an honest man, a good citizen, and in his younger days an industrious man, and will be missed by his neighbors and friends. Thus one by one our friends are passing into the great unknown. He leaves one daughter Isabella Poorman, and one son Samuel, two brothers, James and Rudolph, and a large number of grand-children, to mourn their loss. Services were held at the house on Tuesday forenoon conducted by Rev. J. G. M. Swengel of the United Evangelical church, who delivered a most excellent sermon. Interment in the Pletcher cemetery.

Reeder for Asst. Adjt. General.

Governor Hastings has appointed his ormer law-partner, Wilbur F. Reeder, Esq., Assistant Adjudant General of the National Guard of Pennsylvania, to succeed Lieut. Col. Krumbhaar. This appointment is a deserved one, though it come unsolicited on the part of Mr. Reeder. There is no man who worked harder for the big majority given Hastings than just his law associate, and there are few men in the state who have the interest and welfare of the National Guard more at heart than just Mr. Reeder. Although the office is chiefly honorary, yet what little there may be for the incumbent to do will be done thoroughly and well. We congratulate Mr. Reeder on his appointment and the Governor and State are to be congratulated on the wise selection made.

Don't write Your Name.

It might be well for the farmers of this section of the country to look out for the fruit tree agent, or some of his representatives, who have been working a shrewd swindling game in Tioga county. The plan of operation is to call upon the farmer with the ostensible purpose of selling nursery stock and hiring men to work for the nursery company. If the farmer consents to accept the position offered, the agent asks what the name is, and then always remarks that it is a name he never heard before, and for the fear he will forget it he requests the farmer to write his name on a blank form and the next thing the victim knows he is called on to pay an exorbitant price for a large quantity of trees he never ordered.

Evangelical Churches Purchased.

Rev. Goodling of the United Evang. Church, of this place, last week purchased in a lump the churches at Lemont Egg Hill and Centre Hall including the parsonage at this place. The price paid for the batch is $450. The purchase was effected at Lewistown.

The Aaronsburg church was sold for $170. The Millheim church for $500 and parsonge for $500. Coburn for $30, subject to a small debt. Bellefonte for $10 also a debt resting upon it.

Zion, Rockhill, Madisonburg and Rebersburg churches are yet unsold.

A Surprise Party.

About forty young friends of Miss Pearly Miller, who is ten years old, daughter of Mr. and Mrs. John C. Miller, gathered at her home on Thomas Street Friday evening and gave her a surprise party. Miss Pearly received many handsome presents among them being a handsome plate, cup and saucer, from her cousin Harry Gares During the evening refreshments were served and the children had a most enjoyable time. Miss Bertha Rice played the organ for the amusement of the children. Before they left all wished Miss Pearly might enjoy many more surprise parties.

Howard's Farmers' Institute.

Hon. John A. Woodward has made extensive arrangements for the Farmers' Institute to be held at Howard on Wednesday and Thursday, Feb. 6 and 7. Addresses will be made by Mr. A. C. Sisson, Lackawanna county; William L. Nesbit, of Union; Wm. P. Lloyd, of Mechanicsburg; A. Judson Smith, of New Milport; and Prof. E. E. Sparks, of State College. Every session is public and free and every body is invited.

PLENTY OF SMOKE.

This Being so There Must be Corruption Fires Somewhere.

Philadelphia, February 1.—The committee of city councils that is investigating the charges that $362,000 of stock of the concern was given by the Mutual Automatic Telephone company to members of councils to influence the passage of an ordinance granting the company certain privileges, continued the hearing this afternoon. But little testimony of importance bearing upon the charges was developed, but the session of the committee was an exceedingly lively one. There was an almost continual inter change of angry retorts and threats of personal violence between a witness and the attorneys representing the various interests in the matter. Theodore M. Etting, counsel for the Municipal association; at whose instance the investigation was begun, endeavored to learn from the committee why certain witnesses had not been subpoenaed.

Mr. Etting's inquiries were met with the reply that the committee had considered the question of these subpoenas in executive session and they could only be considered in the same way. Mr. Etting finally succeeded in having the committee promise to subpoena several of the witnesses he wanted and to consider the matter in executive session of subpoenaing the others. Mr. Etting also charged that John F. Persch, treasurer of the telephone company, and Julius C. Gale, an employe of the company, were fugitives in another state from the serving of subpoenas. The particular breeziness of the hearing was furnished to-day by James Breen, a former employe of the telephone company, and the principal witness as to the alleged use of stocks among councilmen, and A. S. L. Shields, attorney for the telephone company. Mr. Shields and Mr. Breen indulged in bitter personal allusions and Mr. Shields at one time characterized Mr. Breen as a coward and a dog and charged him with saying things at the hearing that he would not dare to say on the street. Mr. Breen retorted in kind words and said that he would say to Mr. Shields whatever he pleased upon the street if it so suited him.

Michael J. Ryan, attorney for Mr Breen, was drawn into the altercation and he and Mr. Shields also indulged in a dispute as to where they would see fit to exercise both their tongues and their fists. Without developing anything particularly new in relation to the alleged charges the committee at 6 o'clock adjourned until next Tuesday afternoon.

Were Paid Money.

Indianapolis, February 1. Four witnesses in the Senator White contest testified this morning to receiving $5 each on the Saturday preceding the election Judge White sent them to Chairman McGregg, who gave them the money. Several voters for White were unable to show good tax receipts and their votes will be thrown out. At noon court adjourned until next Tuesday. Blair's counsel will have 150 witnesses to examine Tuesday and Wednesday. Judge White's side of the case will begin Thursday morning.

—The centennial of Lycoming county will be celebrated on July 2, 3 and 4 next, and to defray the expenses a prorata assessment of $25,000 will be levied.

PATENTS
CAVEATS, TRADE MARKS
COPYRIGHTS.

CAN I OBTAIN A PATENT? For a prompt answer and an honest opinion, write to MUNN & CO., who have had nearly fifty years' experience in the patent business. Communications strictly confidential. THE REVIEW OF REVIEWS

Edited by ALBERT SHAW

THE REVIEW-REVIEWS

IT WAS in April, 1891, that the first number of the American Review of Reviews was printed. The new idea of giving the best that was in the other magazines in addition to its own brilliant, original articles, took America by storm, as it had taken England—though the magazine itself was not at all a reprint of the English edition. It deals most largely with American affairs, and is edited with perfect independence, in its own office.

The Review of Reviews is a monthly, timely in illustration and text, and instantly alive to the newest movements of the day, to a degree never before dreamed of. Thousands of readers who offer their commendations, among them the greatest names in the world, say that the Review of Reviews gives them exactly what they should know about politics, literature, economics and social progress. The most influential men and women of all creeds and all parties have agreed that no family can afford to lose its educational value, while for professional and business men, it is simply indispensable. The departments are conducted by careful specialists, instead of mere scissors-wielders, and scores of immediately interesting portraits and pictures are in each number.

All this explains why the Review of Reviews has come to a probably unprecedented success in the first three years of its existence. For 1895 it will be more invaluable than ever.

Agents are reaping handsome profits. We give liberal commissions. Send for terms.

Annual Subscription, $2.50
Sample Copy, 10 Cents, in stamps

THE REVIEW OF REVIEWS
13 Astor Place, New York

THE REGULAR DEPARTMENTS

Besides the special articles and character sketches of thrilling interest and timeliness, the Review of Reviews has these regular departments:

The Progress of the World.—An illustrated editorial review of the month's events which thinking, alert men and women should understand in their proper significance and proportions.

Leading Articles of the Month.—This department, and the succeeding one, The Periodicals Reviewed, embody the idea on which the magazine was founded and named. All that is best in the other magazines, American and foreign, is here brightly summarized, reviewed and quoted from.

Current History in Caricature chronicles the month's history through the picturesque means of the successful cartoons that are appearing throughout the world.

Other departments review carefully new books, give lists and indexes of all articles in the world's magazines, and furnish a terse daily record of current events.

EDWARD T. TUTEN.

Local Department.

—Court again this week.

—Lots of strangers in town again this week, called here by the session of court.

—The Curtin monument movement has not fallen through by long odds.

—Ed. C. Woods is now subbing as mail carrier for Col. Amos Mullen.

—The annual statement of the county commissioners will be found in the inside of this paper. It shows a balance in the county treasury of $7,364.66.

—Our Roller Flour at 75cts. a sack is giving splendid satisfaction. Try it. For sale at Eureka Grocery, High street, next door to postoffice. tf

—And, according to the ground hog, who saw his shadow on Saturday, we will have six weeks more of this kind of weather. Oh, my!

—The Waple damage case against the borough of Philipsburg is now being tried in court. Waple wants only ten thousand dollars damages.

—A fresh shipment of nice Mackerel, just received, at Eureka Grocery store, will be closed out at 10cts. each or 3 for 25cts. tf

—The Bellefonte Minstrels gave another interesting entertainment in the opera house Tuesday evening. Thursday evening they will show in Eagleville.

—The Justice of the peace fight in the South Ward has assumed a three cornered status. It is now McQuistion, Keichline and Hart, with chances in favor of none of them.

—There are thirty some applications for liquor license filed in this county so far. Unless there are more filed within a few days the list this year will be smaller than last.

—Between fifty and sixty Preps. from the State College banqueted at the Brockerhoff House on Saturday evening. They had a delightful time, but had to start home at 9 o'clock. Such is the rule of the Preps.

—The Waple damage case now being tried in common pleas court, is taking considerable time. It has already occupied the attention of the court since Monday noon, and another day will hardly see the end of it.

—Thomas R. Benner is making arrangements to move with his family to Atlantic City, N. J. If many more families move from here to that famous sea resort, there will be a regular Bellefonte colony there.

—This is certainly zero weather with a vengeance, and yet the weather bureau has reported a "cold" wave coming from the northwest. Heaven help the poor when it gets here.

—The first snow sufficient for sleighing this winter fell on the 26th day of December. Since that date there have been forty days of continuous sleighing, and the prospects are good for several weeks of it yet.

—Monday evening the Snow Shoe and Bellefonte Central trains did not reach Bellefonte until almost ten o'clock and this morning the Lewisburg train was over two hours late. Truly this is bad weather for railroading.

—The American republic would be in its infancy yet had it not been for the public spirited men who organized great corporations and by their means proceeded to develop the resources of the country. This is a fact too often ignored, but there are times when it should be remembered,

—The end of the world is to come on April 23d, 1903, according to a German theologian, who has just alarmed Berlin by his prophecy. Among his cheerful forecasts are a great war in 1897, the advent of a new Napoleon in 1899, as King of Greece and Syria, and a terrible earthquake in 1901.

—Rev. Harvey Graeme Furbay, of Tyrone, preached two very interesting and instructive sermons in the Presbyterian church of this place on Sunday, and to large and appreciative audiences. Rev. Furbay is an able speaker and always charms his audiences.

—Perry Wilson McDowel, aged 7 years, son of William McDowel, of Marion township, while trying to cut feed for the cattle with an old fashioned cutting box, got his left thumb under the knife and cut it off close to the hand all but a little bit of flesh. The doctor fixed it up and sewed it on again as well as it was possible to do, in the hope that the member may be saved.

—The county in which Milan, Tenn., is located contains three very odd families, believed to be the tallest and heavist and "lightest" families in that state. The first is composed of four persons-father, mother son and daughter, the range of height being from 6 feet 2 inches to 7 feet 8 inches. The heavy family is composed of father mother and daughter, and their united weight is 900 pounds. The feather weight family is composed of 10 persons, father mother and eight children, the combined weight of the 10 being 513 pounds, an average of a fraction over 50 pounds.

COUNCIL PROCEEDINGS.

Quite a Lengthy Session and Considerable Business Transacted.

Council convened Monday evening at 7 o'clock with President Miller in the chair and additional members Gerberich, Williams, Hillibish, Beaver, Brockerhoff, Bush and Garman present. Clerk Isaac Mitchell read the minutes of the previous session which were approved as read.

J. A. Aikens and Mr. Mechtley appeared in regard to the bill for repairing pavement on corner of Bishop and Allegheny streets, which council had adjudged too large.

The Street committee reported that little work had been done on the streets aside from keeping pavements, crossings, etc., free of snow and ice. They also reported that after the work was completed on Curtin street, most all the men who were working there fell back on the borough for help. This being the case the Street committee gave them work at quarrying stone on Water street, and they now asked of the council instructions regarding the continuance of that kind of labor. In the mtter of the new bridge on Lamb streea, the committee reported progress.

The Water committee reported that they were still running the works day and night, but that no outside work was being done.

The Fire and Police and Nuisance committees had no reports to make.

The Finance committee reported the balance due borough treasurer as $10,675.49.

Considerable discussion was then had on the new bridge question, regarding the height the bridge should be placed etc. Finally the President instructed the Street committee to take the borough engineer, the county engineer and the railroad engineer, go on the ground and in conference with all parties interested arrange just how high the bridge shall be placed.

The Finance committee presented their report of exonerations and errors on taxes for the year 1891, being $964.00, for the action of council. On motion of Mr. Hillibish council accepted and approved the report.

On motion of Mr. Gerberich the water tax against Spangler and Gephart for the brick row was referred to the solicitor for collection with instructions to settle on the same basis as last year—fifty per cent. reduction.

Then came the biggest discussion of the evening, in regarding to the Street committee's request for instructions as to quarrying stone in order to give poor men work. On motion of Gen. Beaver the committee was empowered to proceed with the quarrying, providing it could be done for a sum not exceeding fifty cents per cubic yard. Carried.

The question of Bellefonte's centennial celebration was then taken up and the following program has been mapped out: On June 5th, the laying of the corner stone of the Curtin monument. On the 6th, the district firemen's convention. On the 7th, the dedication of the new city hall and the industrial parade. This will be a big time and all Bellefonters should push the matter as rapidly as possible.

With the approval of the following bills council adjourned:

Bellefonte Fuel and Supply Co.	$135.53
Geo. L. Potter, insurance	20.00
Bellefonte Supply House, supplies	4 65
M. W. Cowdrick, hauling	77 70
R. V. Miller, quarrying stone	36 48
Taylor & Buck, coal	2 65
Wm. Utz, blacksmithing	4 25
Clement Dale, solicitor	100 00
James A. Beaver, legal services	100 00
Isaac Mitchell, clerk	12 50
Police pay roll	25 00
Electric Light Co., lockup	5 70
Water pay roll	60 00
Electric Light Co. street	278 25
Street pay roll	20 57
Bfte. Fuel & Supply Co.	5 20
Jenkins & Lingle, repairs	38 20
J. A. Aikens, pavement	33 90
Total amount	$979 14

COUNCIL NOTES.

Only one more regular meeting for the present council.

President Miller said Monday evening that the present council had done more business with less money than any council for years.

Member Al. S. Garman, from the South ward, has been present every meeting night during his three year's term in council. This is the best record ever made by any councilman in Bellefonte.

By the way council has taken hold of the Bellefonte centennial celebration movement it promises to be one of the biggest successes of anything of the kind ever held here. And so it should be. Just because we now have the Governor is no reason why we should allow the outside world to think we were dead.

Bellefonte Centennial.

This is February. Just four months from to-day is the time set for the citizens of Bellefonte to celebrate the centennial anniversary of the laying out of the town. The committee of council having the affair in charge reported Monday night that the outlook was favorable for a monstrous time—one of the most momentous events ever known in the history of the town, and there have been some pretty big ones already.

As has already been announced the celebration will be held on the 5th, 6th and 7th of June. The prospective program is for the 5th the laying of the cornerstone of the Curtin monument in the diamond, when men prominent in all the walks of life throughout this and nearby states will be invited and, of course, many of whom will be present. There will be a gifted orator for the occasion and who better could be selected than just Hon. A. K. McClure, probably the only man now living who knows best and most of Curtin's public and official life. This will be a day of great state importance, and consequently, of still greater local interest.

On the 6th the Central Pennsylvania district firemen's convention will be held when fire companies from the surrounding dozen or so counties will be here. This will be a day of no little importance as there will be fully two thousand firemen in town and the total crowd would likely aggregate ten or twelve thousand.

On the 7th there will be an industrial parade, the dedication of the new city building on Howard street, races and sports of all kinds, and a general good time. This will be a day of universal local interest and will probably draw the largest crowd from the surrounding villages and also of farmers from throughout the entire county, inasmuch as it is likely the new fair grounds will be opened on that day. The program will not be so large but that there will be plenty of time for everybody to inspect the new shirt factory and other new industries, take a drive on Curtin and Wilson street and take in the beauties of the town generally.

Of course, it is expected that Governor Hastings will be present during the entire three days and there is every reason to suppose that there will be many other prominent men here. Be that as it may, however, it behooves the citizens of Bellefonte to go to work and get up a celebration that will do the old town proud and keep up the reputation she has gained for greatness in every way. To do this, will require no little labor and a neat sum of money so now when you are asked to contribute something for this purpose, don't refuse or even hesitate, but put down your name for a good-sized sum. It will pay in the end, and besides, there will be lots of satisfaction in the big time we'll have.

The Preachers Depart.

The Pittsburg *Times* is a great newspaper. It not only gives all the news of the day for one cent, but it is continually doing something extraordinary for the pleasure and entertainment of its thousands of readers. Several months ago it inaugurated a voting contest by which the five ministers receiving the highest number of votes would be given a sixty days tour to the holy land. The contest was very exciting there being some seven million votes cast and at the close the following were the lucky number: Rev. Father E. W. Trautwein, of Johnstown; Very Rev. F. L. Tobin, V. G., Rev. Dr. John H. Pugh and Rev. T. J. Steffy, of Dawson. With them will be Rev. David Jones, of New Brighton, whom the Times has added to the party.

This morning the ministers with a party of some sixty friends departed on the American line steamer Friesland, and are now off on their trip of pleasure. The *Times* deserves commendation for its enterprise.

Badly Injured.

Tuesday afternoon, Charles Brown, of Williams College, Class of '91, now an assistant in the mechanical department at the State College, was experimenting with various gasses when an explosion took place which shattered the instruments with which he was working burying several pieces of glass tubing in his body. Two pieces of glass were buried in his eye and it is feared the sight of the injured member may be permanently destroyed, even should Brown survive his other injuries, which are considered at the best, very serious. He was given the best possible surgical attention and was then taken on the night train to consult a specialist in New York city.

Reduction on Winter Goods.

Have you noticed the extraordinary reduction in prices in all lines of winter goods offered by Lyon & Co., in their advertisement in another column? If you have not you should read the add at once and then profit thereby by going to the store and purchasing anything you may need in their line. Remember the reduction sale will last but thirty days, but while it does last, it will include everything in the line of clothing, underwear, boots and shoes, blankets, dress goods, flannels, etc., all reduced from 25 to 33 per cent from former price. It is astonishing how cheap they are selling goods, and it is more astonishing how much they are selling. Wagon loads of it every day. Go to Lyon & Co., if you want anything, before you buy it elsewhere.

Big Timber Purchase.

Potter County Enterprise: E. H. and C. W. Goodyear, of Buffalo, have made another big land deal in Potter county, by which they have purchased from the Bingham estate trustee 15,543 acres of timber lands, for which they are to pay the handsome sum of $260,678. At the present rate it will not be very long before the Goodyears will own fully two-thirds of the timbered lands in this county.

Appointed Page.

Guy Kress, son of W. C. Kress, esq., this city was Monday appointed by Governor Hastings as a page in the executive department. The young man recently graduated from the schoolship Saratoga.

—A high grade coffee at a low grade price. Mocha and Java screenings at 22c per pound at the Eureka Grocery. tf

—The State College Glee and Banjo Club, numbering some thirty-five students, gave their initial performance in the College chapel on Tuesday evening. The boys will make a tour of the western part of the state in the latter part of March.

THE RIGHT KIND OF CHARITY.

The Present a Good Time to indulge it.

When the ground is covered with snow, then the lot of the poor is hardest. Those who have snug and cozy homes, warm firesides, sufficient, substantial food, and necessary clothing, may well be thankful for the Giver of all good. The honest, industrious, and worthy class, who may be in need of the necessaries and comforts of life, certainly appeals to the sympathies of the more fortunate. Moreover there is great satisfaction in knowing that you have filled a hungry mouth or warmed a freezing body. Especially delightful is it to relieve a patient, enduring mother, and helpless children from suffering, even when the father and husband may be unworthy. But the most distressing poverty oftentimes, is not in money, primarily but something else which lies back of that which occasions and produces poverty of means. The highest kind of charity seeks in giving people as means of living, at the same time to lead them to better living, to give a poor man something to live on or in, is not so high a charity as to assist him to some honest way of livlihood. Laziness, indolence, wastefulness, and intemperance should not be encouraged, and that is not charity, which does this. Along with the giving of money there is need for the supply of a more serious lack oftimes. Through ignorance and weakness many plunge themselves into inexcusable poverty. Suppose a man with his family should be brought to starvation door, who, within a year had bought an expensive organ for his house. A few lessons in practical economy, in the table, in the wardrobe, and in the house furnishing, would be a high kind of charity. The worst form this sinful drainage on a poor man's purse takes is the spending of money on drink. True charity takes a constant interest in the affairs of mankind, and seeks to improve their condition.

The Crows are Starving.

There is surely a financial panic, and hard times among the crows. There is nothing in the way of crows diet above the snow, and hunger has driven the cawers very close to the farm buildings. The Nippenose News says our farmer reports that the crows fly down among the chickens and pick with them while they are being fed. The sparrows fare better by reason of their small size. They stay close to the barns and rob the graneries. There is no such thing as the sparrow proof granery in this valley. Such a one would have to be hermetically sealed.

Marriage Licenses.

Following is the list of marriage licenses granted by the register of Centre county during the past week:

George Reeder and Sarah J. Bloom, of Milesburg.

Barney Zeigler and Nellie Goffingter, of Philipsburg.

James W. Lucas and M. Esther Hannon, of Howard.

William H. Grove and Fannie M. Corman, of Penn twp.

LETTER LIST

The following letters remain in the Bellefonte P. O. uncalled for Feb. 4th, 1895.

G. G. Dinges, S. H. Bennison, Willson Gaskins, Mrs. J. H. Hazel, Frank Kyle, D. L. Matlin, Lula Miller, Mrs. Johnson Miller, S. R. Pringle, Susan Royer, Mrs. W. S. Vandersmith, Winopt Lawrence.

When called for please say advertised.

DAVID F. FOUNTAIN, P. M.

The China-Japan War

It is thought may raise the price of tea and other articles, but we are still furnishing to our customers at the old rates. We take no account of the scrap between the Japs and Chinese, we know some merchants are trying more money to squeeze by advancing the prices of spices and teas, but the old reliable

EUREKA

keeps right along at the same old gait with prices as usual, with everything in the grocery line the best and cheapest in the market Call and see us—latch string always out—at Eureka Grocery, High Street, next door to post office.

Royal Baking Powder

ABSOLUTELY PURE

PERSONAL PENCILINGS.

Mrs. Frank Lukenbach is sojourning in Bellefonte this week.

Mr. and Mrs. C. F. Montgomery and son have returned from a sojourn in Philadelphia.

Mr. H. C. Parker, the shirt factory man, of Lewistown, spent Tuesday night in Bellefonte.

Col. W. R. Teller, the former genial proprietor of the Bush House, is at present visiting friends in Bellefonte.

Miss Brown, of Lock Haven, is being entertained at the home of Mr. and Mrs. Kyle McFarlane, on East Linn street.

Mrs. Will Cowdrick and two children, after spending a week or two visiting relatives in this place, departed this morning for their new home at Niagara.

Miss Rachael Scanlon, of Axe Mann, who has been visiting friends in Altoona for the past six weeks, returned home on Saturday evening.

Mrs. Wheelan and her daughter, Christina, of Philadelphia, are guests at the home of Mr. and Mrs. W. H. Wilkinson, on Allegheny street.

Prof. George P. Bible made a short call in Bellefonte on Friday. He was with the House Agricultural committee at State College.

Mrs. James Lane, of Philadelphia, is a guest at the home of her parents, Mr. and Mrs. J. V. Thomas, on Allegheny street.

Mrs. George E. Harris has returned from a visit to Ithaca, N. Y., and was accompanied home by Miss Sage, her niece.

Mr. Morse Montgomery, who suffered such a severe sprain of the ankle by a fall on the ice about a week ago, is still confined to his room, being unable to bear any weight on the injured member. It is believed it will have to be put in plaster paris.

Surrounding Counties

L. J. Hurd, a prominent citizen of La Jose, Cambria county, is dead, at the good old age of 75 years.

The coal operators at Patton are discharging all Hungarians and Italians in their employ, presumably in order to give place to American laborers.

The winter encampment of the G. A. R. to be held in Williamsport on the 27th and 28th of this month, promises to be an important event. More than 1,000 delegates are expected to be present.

John Olafish, of Nippenose valley, last week killed a ferocious animal known as the lynx, and afterwards found thirty of his chickens dead, having been killed by another animal of the same species.

Henry Beers, an aged citizen of Cromwell township, Huntingdon county, fell from his hay mow to the barn floor on Wednesday evening and received a concussion of the brain which rendered him unconscious for several hours.

The beams and floor of the Lutheran church at Glasgow, Cambria county, took fire from the furnace yesterday morning just as Sunday school assembled for services. For several feet from the floor the boards burned nearly through.

In the Case of Debs.

Chicago, February 5.—At the opening of the Debs trial to-day Mr. Walker asked, on behalf of the government, that the cases against Dennis Larkin, John Burke, Frank Dreyer and James McDonald be dismissed. Judge Grosscup dismissed these four and announced that he would let the jury pass on the cases of the directors of the American Railway union. The defense asked him yesterday to dismiss the cases without a further hearing. In regard to John F. McVean and Martin J Elliot, the two least active of the directors the judge said he would take their cases under consideration. In passing on the question whether testimony concerning the switchmen's strike should be admitted, Judge Grosscup said:

"I think when this case gets to the jury it is going to turn on what were the real motives and purposes of these defendants in instituting the strike in 1890. I will therefore hear the pre-history of the strike."

This ruling is regarded as a distinct victory for the defense.

Grand Lodge of Odd Fellows.

Odd Fellows throughout the state are arranging to attend the encampment and grand lodge sessions in May. The western Pennsylvania delegation will take 7,000 people to Philadelphia. All are to be attired in the same kind of a uniform, and for each 300 persons there will be a brass band.

During January the receipts of the government were $28,000,000, and the expenditures $34,500,000. There will be no danger of a surplus as long as this continues.

—Rev. N. O. Patterson (white), pastor of the Baptist church of Ansonville, Clearfield county, Pa., preached an able sermon at the A. M. E. church Tuesday night. Rev. Patterson is attending court here.

This Train Was Held Up.

Hutchinson Kan., February 5.—When train No. 1 on the Santa Fe road reached Sylvia, a small station twenty miles west of here, last night, it stopped for coal and two men crawled into the cab, at the same time covering Engineer Kearney and his fireman with guns. They robbed the engineer and fireman of their money and ordered them to march to the express car and break open the door. A demand was made upon the messenger, Jesse Ruble, to open the safe, but when he refused the robbers abandoned the idea of robbing the express car. They then marched the engineer and fireman with a sack into the passenger coach and while one man held the trainmen, the other covered the passengers and ordered "hands up." Thus they went through the train, dumping pocketbooks, watches, knives and revolvers into the sack. The amount of money secured cannot be approximated. One lady bought a ticket at Hutchinson for a Colorado point and the ticket agent here says she had at least $300 when she purchased her ticket, which she was made to donate. After the work of robbing the coaches was over, the engineer and fireman were marched back to their posts and ordered to "pull out," which they did.

After the robbers passed through the first coach, the conductor and a brakeman started to leave the car and raise an alarm in the town, but they were discovered by more robbers standing on the ground on each side of the train who ordered them back into the coaches.

The country is aroused and the farmers are out well armed trailing the robbers, who rode off in a southeast direction.

On Their Ears.

Brooklyn, N. Y., February 5.—The members of district assembly 75 were resting on their oars to day. They had apparently exhausted all their ammunition. All last night not an assault on a non union man nor on a car was reported to police headquarters.

Commissioner Morle in the United States court, this morning dismissed the complaint against Benjamin Norton, of the Atlantic Avenue Railroad company, who was charged with violating the federal laws in allowing cars marked United States mail to be placed on the cars of his company that do not at all times carry the mail. No testimony was produced to show that Mr. Norton had wilfully violated the United States laws in any way.

The mass meeting in the interest of the former employes of the trolley roads which had been arranged to take place at the Athenaeum, was not held this evening owing to the presence of the police. About fifty persons had taken seats in the hall when H. B. Martin, of the executive committee of the Knights of Labor stepped upon the platform and said that he had been authorized to announce that the meeting was postponed until such time as it could be held without uniformed police blocking the entrance and interfering with a peaceful assemblage of citizens.

The people in the hall then retired.

The strikers held an indignation meeting at the labor lyceum and denounced the action of the city authorities in dispersing the mass meeting in front of the city hall yesterday, and interfering with the Athenaeum meeting to-night.

A Distressing Accident.

Brooklyn, Feb. 5.—A trolley car of the Cross Town line ran into a funeral procession at Wythe avenue and Broadway, Williamsburg, this afternoon. After the car had gone through the procession the hearse was found upset and the coffin lying in the gutter. The funeral was that of a two year-old child. The car was in charge of new hands.

—The name of the postoffice at Hecla is not "Mingleville," as was announced last week, but "Mingoville."

—"Harrington," of the weather bureau, telegraphs as follows: "Heavy snows tonight with greater cold to-morrow.

A WARNING TO COASTERS!
